

To Full Council – 18th July 2024

Notice of Motion

Seafront Parking Charges Parking Displacement

Parking for residents on the Woodgrange Estate is in short supply where in the evenings, residents have to park on the double yellow lines in the estate

Visitors to the seafront use the estate to park their vehicles to avoid the sky high parking charges. This will only get worse now charging will be up to 9pm.

When charging on the seafront was previously up to 9pm, residents were facing enforcement action on the Woodgrange Estate up until 9pm when there was a lack of spaces.

With the sky-high parking charges and the re-introduction of the 6-9pm parking charges

This Council therefore resolves:

1. That residents who live on the Woodgrange Estate and surrounding roads will not caught up in the enforcement regime in the evenings.
2. That measures will be explored for those living on the Woodgrange Estate and surrounding roads to be given priority access to park near their homes.
3. That a review of the yellow lines on the Woodgrange Estate commences to look at freeing up more residents parking.

Proposed By: Cllr Tony Cox

Seconded By: Cllr Meg Davidson
