

The contractor is responsible for checking dimensions, tolerances and elevations. Any discrepancies to be notified with the MUD/2000 system immediately after the works. Where an item is covered by drawings on different scales the larger scale drawing is to be worked to.

Do not make drawings. If ground dimensions to be worked to in all cases.

Where products have been specified, P80 have reviewed applicable products available in the UK at the time of writing the specification. For the location of goods, product manufacturers must confirm that each product is fit for its intended use and provide such evidence as may reasonably be requested to confirm performance, including, but not limited to, product test certificates and references with signed records.

Where the contractor wishes to propose alternative products, representative samples and a full technical appraisal should be submitted to the contractor in the employer demonstrating that their proposed alternative has equal or better performance. Any alternative products are subject to design team, building control, warranty provider and employer acceptance.

COM REGULATIONS 2016: All current drawings and specifications for the project must be read in conjunction with the Designer's Handbook and Certification Assessment Report.

All intellectual property rights reserved.
