

## **Notice of Motion – Impact of National Funding Formula on Southend's Schools.**

This Council:

1. Understands the need to review the National Funding Formula for schools;
2. But is disappointed at the negative impact the proposed National Funding Formula for schools will have on Southend schools, as it is implemented from 2018/19.
3. Notes that Southend is only one of four Local Authorities in the country in which every school is set to lose out.
4. Notes that the efforts already being made by the Administration, strongly supported by both Members of Parliament, in making representations to Central Government to ensure changes are made as part of the consultation.
5. Supports the Administration in making a robust response to the consultation to ensure that the impact upon Southend's schools will not be as proposed.

Proposer: Cllr James Courtenay

Seconded: Cllr John Lamb
