Introduction

- Fraud costs local government in England over £2 billion per year (*source: National Fraud Authority*)
- Fraud is never a victimless crime
- Councillors have an important role in the fight against fraud

Purpose of Fraud Briefing at your council

- Opportunity for councillors to consider fraud detection performance, compared to similar local authorities
- Reviews current counter fraud strategy and priorities
- Discuss local and national fraud risks
- Reflect local priorities in a proportionate response to those risks

Your council is compared with the metropolitan districts and unitary authorities of the west midlands, east midlands and east of England regions

National Picture 2012/13

Total cases detected 107,000, with a value of £178 million (excluding social housing fraud)

Nationally, the number of detected frauds has fallen by 14% since 2011/12 and the value by less than 1%

Interpreting fraud detection results

- Contextual and comparative information needed to interpret results
- Detected fraud is indicative, not definitive, of counter fraud performance (Prevention and deterrence should not be overlooked)
- No fraud detected does not mean no fraud committed (Fraud will always be attempted and even with the best prevention measures some will succeed)
- Councils who look for fraud, and look in the right way, will find fraud (There is no such thing as a small fraud, just a fraud that has been detected early)

Your council is highlighted in yellow in the graphs that follow
