Progress report to those charged with governance

January 2015

INTRODUCTION

Summary of progress

This report is intended to provide the Audit Committee with an update of the progress in delivering the 2013/14 and the 2014/15 audit.

Auditors' principal objectives are to review and report on, to the extent required by the relevant legislation and the requirements of the Code of Audit Practice for Local Government, the audited body's:

- financial statements
- arrangements for securing economy, efficiency and effectiveness in its use of resources.

We are also required to certify specified grant claims and returns as directed by the Audit Commission.

Audit Certificates

The audit certificates for the years 2011/12 to 2013/14 remain outstanding pending the conclusion of our response to an objector. The issues raised by the objector related to car parking and the use of vehicle with CCTV cameras.

The findings and conclusions have been reported to the representative of the Objectors. A Statement of Reasons has been prepared, which has completed both internal and Audit Commission quality assurance phases. We continue to await the final conclusions of a linked Internal Audit review before being able to issue this report.

Our certificates for the years 2011/12 to 2013/14 can only be issued once the full process of the Objections has been concluded.

We have been notified by the representative that he will, before the certificates are issued, submit Objections relating to the Council's use of bailiffs and covering the year 2011/12 and subsequent periods. We understand that these are linked to information requests that have been ongoing since the time of the original Car Parking questions and Objections.

2011/12 AUDIT RECOMMENDATIONS

Conclusions from work	Recommendations 2011/12	Management responses	Responsibility	Timing	Latest management update	RAG status
Internal controls						
<p>1. Reconciliations</p> <p>Our audit work identified that the bank and payroll reconciliations were not being completed on a monthly basis. This resulted in a delay in receiving the year end reconciliations for these areas and adjustments being required to be made to the financial statements as a result.</p> <p>We also identified that, since the implementation of Agresso, Officers have not been utilising the reconciliation / checks between the feeder modules as the system intends. Instead manual reconciliations were being used.</p>	<p>Ensure that all reconciliations are completed on a monthly basis and that the year end reconciliations are completed in time for the closure of the 2012/13 financial statements.</p> <p>Ensure that reconciliations within the Agresso system are completed as the system intended, making use of the automated reconciliation controls within the system.</p>	<p>Agreed.</p> <p>We are working towards that position, however there needs to be changes to systems outside of Agresso so that the cashbook information can be disaggregated in a way that enables automated reconciliation. Until automation can be successfully enabled, reconciliations will continue to be manually compiled.</p>	<p>Caroline Fozzard (Group Manager - Financial Planning & Control)</p>	<p>March 2013</p>	<p>Monthly reconciliations are being undertaken and work is on-going to ensure timely completion for the 2012/13 financial statements, which has resulted in a minimal balance for final reconciliation. Systems mapping work has been undertaken relating to the cash code on the general ledger. This has identified areas of further work to assist the reconciliation process.</p> <p>To enable the cashbook information to be disaggregated in a way that enables automated reconciliation, changes are needed to the cash receipting system. This system is now out to tender and will be upgraded for go-live April 2014.</p> <p>September 2013 The tender process is complete and the provider has been chosen. The contract is to be signed shortly and project planning and preparation work is underway for planned implementation by April 2014.</p> <p>December 2013</p>	<p>G CCIP</p> <p>R NC&O See note ¹</p>

¹ The reconciliations are now being performed on a timely basis with only trivial un-reconciled differences remaining. The final solution to achieve the automatic reconciliation sought is currently being developed by management.

Conclusions from work	Recommendations 2011/12	Management responses	Responsibility	Timing	Latest management update	RAG status
					<p>The implementation is progressing well and export files that disaggregate the cashbook information have been tested successfully. Further testing will be carried out with go-live on schedule for 1st April 2014.</p> <p>March 2014</p> <p>The disaggregation of the cashbook went live on 1st April 2014 as planned. Work is currently underway to set up the auto-matching rules within the Agresso bank reconciliation module. When this work has been completed the module will be used with effect from 1st April 2014 to reconcile cash to bank</p> <p>June 2014</p> <p>Testing of the Agresso bank reconciliation module has been completed and the relevant data loaded into the live system with the module going live in August. Many auto-matching rules have been set up and the module is being used to reconcile case to bank, starting from 1 April 2014. Work is currently underway to catch up the backlog from April to the present and to set up more auto-matching rules.</p> <p>September 2014</p> <p><i>Work is continuing to catch up the backlog from April to the present and to set up more auto-matching rules where possible.</i></p> <p><i>December 2014</i></p>	

2012/13 AUDIT RECOMMENDATIONS

Conclusions from work	Recommendations 2012/13	Management responses	Responsibility	Timing	Latest management update	RAG status
Title Deeds We identified that two of the land and buildings selected in our sample do not currently have title deeds registered with the land registry. If the assets are not registered it could leave other parties to make a claim that the asset belongs to them.	Put in place programme to review all land and buildings over the next few years to ensure that they are registered. This will ensure that there are no future legal implications regarding the ownership of council assets.	<p>Many of the land and building assets have been owned by the Council for a great many years, before it was a requirement to register them with the Land Registry.</p> <p>The legal department have confirmed that the title deeds should be sufficient to prove ownership and the Council's interest will stay intact. However, if land is not registered it can affect the ease and speed of proving title, but not generally in proving ownership.</p> <p>The legal team have been undertaking a registration project and so far most of the Council's title has been registered. They have limited resources but are reviewing and dealing with this on an on-going basis.</p>	Peter Tremayne (Acting Principal Solicitor)	On-going	<p>The process is continuing and the Land Registry are currently examining titles passed over to the Southend-on-Sea Borough Council by Essex County Council on the 1998 reorganisation and registering where required.</p> <p>All registered deeds are being entered on the Atlas Mapping system along with general ownership.</p> <p>The project is on-going. December 2013</p> <p>Project is on-going March 2014</p> <p>Project is on-going June 2014</p> <p>All deed packets were sent to the Land Registry for registration and the land has been registered and the details additionally incorporated on the property database. <p>Related party transactions</p> <p>For a number of transactions disclosed as related parties it was not clear from the information available to us whether they meet the definition of a related party.</p> <p>There is the potential that related party transactions may be over disclosed</p>	<p>During the accounts production process consider how the proposed transaction meets the definition within the Code of a related party transaction to be disclosed.</p>	<p>Agreed. Conclusions from work	Recommendations 2012/13	Management responses	Responsibility	Timing	Latest management update	RAG status
<p>Adult Social Care Debt</p> <p>Through our testing of adult social care income it was identified that the property value used as a cap when calculating the debt to be recognised is based upon the representations of the client about the property value and is not verified to an external valuer's opinion.</p> <p>This could mean that the council is unable to reclaim all of the debt if the property cannot be sold for as much as the client is claiming. It could also mean that the value of debt may be understated if the value of the property is more than the client claims it is worth.</p>	<p>Obtain a valuation of the property when the client first enters the care system and subsequently review this valuation every 5 years on a rolling basis, in accordance with the suggestions from the Group Manager (Department for People).</p>	<p>We are now requesting those who have been on a deferred payment for more than a year for a valuation from an estate agent and we will continue to ask for them on an annual basis thereafter.</p>	<p>Sarah Baker (Group Manager: Department for People)</p>	<p>Immediate</p>	<p>We continue to request an estate agent valuation for those who have been on a deferred payment for more than a year and on an annual basis thereafter.</p> <p>At the start of the deferred payment period, an estimated valuation is obtained from the Zoopla website which gives us an idea of what the value of like properties are in the area. December 2013</p> <p>As above re deferred payments. At the start of the deferred payment period, an estimated valuation is obtained from the family and we may compare this valuation with other like properties in the area. We ask for the professional valuation at the first year review, as by then families/service users/the authority will know more what is happening and things are more settled. With property values in Southend we are not at risk of reaching property value within one year. March 2014</p> <p>No further action required. June 2014</p>	<p>Y</p> <p>CNYC²</p>

² Progress in implementation was checked during the 2013/14 audit, but further action was found to be required. This will be followed-up during the 2014/15 audit.

Conclusions from work	Recommendations 2012/13	Management responses	Responsibility	Timing	Latest management update	RAG status
					<p>The next of kin are asked to provide a valuation of the property that the debt is being accrued against every 12 months. The documentation received from the next of kin will be compared to valuation sites such as Zoopla as a method of verifying the figure provided. Every quarter the clients are advised of the amount of debt currently accrued against their property, we intend to raise quarterly invoices but are waiting for some set up work to be completed in Agresso before commencing this. If no valuation is received then we intend to advise the family that we are unable to accrue any further debt against the property without knowing the value. This will be in the form of a letter signed by the Group Manager. September 2014</p> <p><i>We are asking for a valuation at the end of the first year and invoices will be raised at the end of the financial year for all outstanding deferred payments. A new debt type has been set up so that they can be identified. We have not had anyone unable to provide a valuation to date. December 2014</i></p>

	Carry out 40 plus testing in the areas where errors were identified, during 2012/13, to enable timely completion of the audit.	This will be done by quality assurance team by time of External Auditors sampling.	Asst Benefit Manager	Implemented and ongoing	Complete & Ongoing Action December 2014	G CCIP
Our testing identified a number of uncashed cheques that should not have been included in Cell 179 as they had not been stopped during 2012/13.	Review a sample of uncashed cheques included within cell 179 to ensure that they are appropriately included in this cell.	Agreed will be added as a task for the QA team.	Asst Benefit Manager & Quality Assurance Team	June 2014	On target June 2014 Checking has continued throughout the year and business as usual. December 2014	G CCIP ⁴
A large number of LA error and administrative delay errors were identified during our testing. Resulting in the council breaching the upper threshold and losing subsidy on these overpayments.	Regularly monitor the value and number of LA error/ administrative delay errors and the days taken to process amendments.	To be covered by QA team and Team Leaders and reported monthly to Revenues & Benefits meeting.	Quality Assurance Team & Asst Benefit Manager	Implemented February 2014	Completed in February 2014 & Ongoing Action June 2014 Checking of high value administrative delay continues as planned. Conclusions from work	Recommendations 2012/13	Management responses	Responsibility	Timing	Latest management update	RAG status
The Council is proposing to remove all old information from the Eclipse system, which is no longer supported, (the system includes old claim form and evidence provided by claimants). There is a risk that data is deleted and therefore the entries within the subsidy claim cannot be supported, which would result in a loss of subsidy.	Ensure that up to date information is held for all claimants. In particular, write to claimants where they are in receipt of war pensions or private pensions (these are the cases where information tends to be old or out of date).	<p>New claims data has now been transferred from Iclipse</p> <p>A plan is being drafted to write to all affected claims to get up to date evidence onto Civica.</p> <p>Claims where War Pensions and/or private pension affect the calculation of benefit to be written to, to request current evidence of income.</p>	<p>Asst Benefits Manager</p> <p>Asst Benefits Manager</p> <p>Asst Benefits Manager</p>	<p>Completed</p> <p>Completed February 2014</p> <p>February 2014</p>	<p>Complete December 2014</p> <p>Completed in February 2014 December 2014</p> <p>Completed in February 2014 December 2014</p>	<p>G</p> <p>CCIP</p>

Form EOYCd was not made available by the Council until 20 November 2013.	Agree form EOYCd with Teachers' Pensions and submit the form to the external auditors for certification by no later the deadline specified by Teachers' Pensions.	Agreed. Return to be submitted in line with deadline.	Sue Putt Group Manager	September 2014	<p>On target March 2014 Initial return has been submitted to Teachers Pensions and External Audit June 2014 Target met to submit initial return for June 2014. Conclusions from work	Recommendations 2012/13	Management responses	Responsibility	Timing	Latest management update	RAG status
A large number of errors were found with the Teachers' pension return that was submitted for audit. This was because the figures originally included could not be supported by reports from the payroll system.	Maintain working papers to support form EOYCd. These should be clearly cross-referenced to both the final version of form EOYCd and appropriate supporting evidence (e.g. reports from the Agresso payroll system, documentation to support adjustments).	Clear process to be put in place for any paperwork undertaken. Automation of processes to be developed within Agresso to minimise paper requirements.	Sue Putt Group Manager	January 2014, test run in February 2014.	Reports have now been created which eradicates the need for manual calculation and ensures that reconciliation issues are resolved. Final testing of these reports is underway. Once completed these test results will be reviewed by Internal Audit. BACs reports are now separated in respect of Academy & Community Schools. March 2014 Internal Audit has reviewed processes and are satisfied with the new arrangements in place and work has been completed with the Agresso Support Team on the relevant reporting requirements. June 2014 A review of reports will continue as necessary to ensure all processes are maintained. Internal audit continue to work with us and remain satisfied with the work in this area September 2014 All work undertaken and completed. December 2014	 CCIP
	Arrange for form EOYCd, the supporting working papers and associated evidence to be independently reviewed prior to submission to the external auditors for certification. FINANCIAL STATEMENTS						
Pension figures When assessing the work of the actuary we identified that the Council did not have a copy of the engagement letter in place between Essex County Council and the actuary. The Council are relying on the figures provided to include within their accounts. It is best practice for the Council to obtain a copy of the letter in order to understand what the actuary has been engaged to do.	Obtain a copy of the engagement letter between the County Council and the Actuary. Ensure that the letter includes all required information.	Agreed	Ian Ambrose Group Manager – Financial Management	February 2015	Action not yet due. December 2014	 A NCNYD
The Forum The accounting treatment for this asset is complex. It could cause material errors in the 2014/15 financial statements, and so it would be helpful to engage in early discussions around the treatment of this asset.	Prepare at an early stage a detailed working paper to support the proposed accounting treatment for the Forum, so that discussions can be held safely in advance of the year end closedown.	Agreed	Caroline Fozzard Group Manager – Financial Planning & Control	December 2014	Early discussions with BDO have taken place and a detailed working paper has been produced based on these discussions. Capital Grants and Contributions Capital grants are all currently disclosed under the heading "Capital grants and contributions unapplied" in note 7 of the accounts and only REFCUS (Revenue Expenditure Funded From Capital Under Statute) income amounts are disclosed under the heading "Capital grants and contributions applied". From testing completed most capital grants have been applied during the year and the current presentation within this note could be misleading for users of the accounts. The current year treatment does not give rise to any misstatement on the total amount charged to the capital grants unapplied reserve.	Disclose capital and REFCUS grants in note 7 of the accounts based upon whether they have been applied during the year in line with the heading descriptions. Carefirst and Agresso Interface There are no checks completed over the data into Agresso from the Carefirst system to ensure that the data uploaded on Agresso is complete and agrees to the original data from Carefirst.	Data uploaded to Agresso from the Carefirst system should be checked to confirm that the amount of income/expenditure and number of items agrees between the two systems.	Agreed	Sarah Baker Group Manager – Business Support	October 2014	<i>As part of the budget monitoring process all external purchasing Agresso codes are now reconciled to the amount extracted from Carefirst to ensure that there are no differences. GOVERNANCE REPORTING						
Annual Governance Statement Our review noted that the section under "Review of Effectiveness" is a combination of both commentary on the Governance Framework and review of effectiveness. If these were split out the statement would be easier to follow.	Create two sections within the governance statement: <ul style="list-style-type: none"> • Governance Framework • Review of effectiveness 	Agreed	Tim MacGregor Policy & Governance Manager	March 2015	<i>To be undertaken for the 2014/15 AGS December 2014</i>	 NCNYD
WHOLE OF GOVERNMENT ACCOUNTS						
The management review checklist was not completed on a timely basis.	Complete the management review checklist before the submission of the WGA to the DCLG. Provide this to the audit team when the WGA is submitted. Include the key milestones for the WGA within the closedown timetable, ensuring that this includes the completion of the management review checklist. SOUTHEND-ON-SEA BOROUGH COUNCIL

There were a number of instances where it was difficult to reconcile the WGA to the accounts. It was time consuming for the audit team to establish why these differences occurred.	Ensure that all numbers in the WGA agree to the draft accounts approved by the S151 Officer before submission to the DCLG. Provide a list of all differences which are identified as a result of mapping at the start of the audit. Where the information required for the WGA is not derived directly from the accounts ensure that supporting documentation is provided. Where relevant ensure that the analysis is reconciled back to the accounts.	Agreed	Ian Ambrose Group Manager – Financial Management	June 2015	<i>On target December 2014</i>	 NCNYD
A number of errors and omissions were identified within the CPID data tab	Ensure that the CPID tab includes counter party transactions for significant components eg South Essex Homes. Perform a comparison of the amounts included in the CPID tab in the prior year to those included in the current year. Ensure significant variances only occur where expected. Some of the explanations included on the validations error tab did not fully or accurately describe why the validation error had occurred.	Ensure appropriate explanations are placed on all validation errors which explain what the validation error is and why the validation error has occurred, rather than simply entering 'not material'.
