

Motion to Council

Madam Mayor

I wish to propose that the Council maintains the facilities of the Avro-Viking centre and resists any attempts to withdraw funding from this facility which is much needed for our most vulnerable residents of our Borough.

This facility not only cares and looks after our residents but it is also a community within a community where our residents have together developed friends and relationships over a number of years.

While our most vulnerable residents are at this centre this gives a great comfort to their carers and a very much needed break from the considerable time, care and attention that carers devote to their charges.

Therefore in proposing this motion, I urge the Council to consider very carefully about any changes they might be considering in this area and state that this facility will be protected and maintained for our residents that are in most need.

Proposed Councillor Mike Stafford

Seconded Councillor Ron Woodley
