

**Appendix 1 – Details of objections with officers  
comments/recommendations**

<b><u>Ref No.</u></b>	<b><u>Site</u></b>	<b><u>Objection/Support</u></b>	<b><u>Recommendation</u></b>
1	Prince Avenue Service Road	<p>Objections received from 2 directly affected properties.</p> <p>1 concerned that lengthening the existing restrictions to No 166 will result in parking being displaced to adjacent his mothers property(168), parking is needed outside this property as the resident is disabled and requires vehicles to be close to the property when being picked up. asks if possible can the lines be extended to this property</p> <p>1 objection concerned re loss of parking to local shops. The shops are near the service road however there is short term parking available very near the shops.</p>	See below
2	Prince Avenue Service Road	Support received from 1 directly affected property	The level of objection does outweigh the support however the narrow road is a concern. If desired the lines can be further extended to incorporate No 168. while parking for local shops is desirable this should not be accommodated where parking is likely to be detrimental to traffic flow or safety.
