

**Appendix 1 – Details of objections with officers
comments/recommendations**

<u>Ref No.</u>	<u>Site</u>	<u>Objection/Support</u>	<u>Recommendation</u>
1	Stanley Road	Objection received from 1 directly affected property 1 concerned at loss of parking	See below
2	Stanley Road	Support received from 1 directly affected property but also mentions parking difficulties within the area caused by local workers and town centre shoppers, requests action to resolve these existing difficulties as the loss of parking will exacerbate and already intolerable situation.	<p>The restrictions are required to maintain emergency access. this area is known as being subject to high parking pressures, the numbers of properties which have been converted, the proximity to the town centre and the lack of off street parking provision all contribute to a difficult situation. If funding is available there are possibilities that this area can be included in designs for potential parking management schemes.</p> <p>Members are requested to agree to the proposals for safety reasons.</p>
