

Proposal	Details of Comment	Officer Comment	Recommendation
London Road opp Palace Theatre - Remove parking bays and replace with taxi rank	1 comment received from charitable business fronting the parking bays. Short term parking crucial to newly opened community venture – deliveries of donated goods will be adversely affected	The proposal was designed to improve taxi access for the Theatre, busiest periods are during the evenings – parking is very limited and local businesses reliant on this area for servicing and customers.	Take no further action. We will explore the possibility of seeking authorisation from DfT to amend the bus facility to a shared taxi facility in the evenings.
Ferndown Close – provide restriction to prevent daytime parking which is often obstructive.	3 comments received from local workers due to loss of parking for accessing the Lloyds building opposite.	The close is narrow and vehicles often park partially on the footway to avoid vehicle damage. Larger vehicles have difficulty accessing the close when parking is present. Residents have off street parking facilities and the local Councillor supportive of the proposal.	Implement as advertised. Residents and local ward Councillor supportive of proposals – restrictions will remove footway parking and potential damage along with access issues for larger and emergency vehicles.
Eastwood Lane South – restrictions on the all junctions	2 comments regarding loss of parking. 1 from a resident and 1 on behalf of the local church congregation.	The proposal is to the minimum length stated within the highway code that drivers should not park at a junction (within 10m). Proposal is based on maintaining visibility and also access for larger vehicles.	Implement as advertised. While the loss of any parking is regrettable, road safety must be of prime consideration. Where vehicle park close to a junction, visibility is impeded and larger vehicles have extreme difficulty in manoeuvring.
Frobisher Way junction Mountbatten Drive	1 comment received suggesting part time restriction	Junctions should be kept clear at all times in accordance with the highway code.	Proceed as advertised
