Front Page Plan

Corrected plan:

**Section 4 Representations**

5 additional letters of representation have been received from previous objectors at 4 addresses reiterating earlier objections and in addition seeking deferral of the application in order to attend the Committee meeting, together with additional comments summarised as follows:

- the high costs of refurbishment are stated as a negative but not the costs of changing to an HMO. The illegal occupation in 2022 led to extensive damage and the costs involved significant.
- There is also an excellent and historically significant hotel opposite the Branch which may feel a negative impact from the proposal.
- a contributory factor to high refurbishment costs is the neglect of recent years for which the owners bear responsibility.
- Recently residents needed to clean up the rubbish strewn and overgrown frontage of the Branch

- lastly there is the cost factor involved for the city looking forward. A hotel or holiday rental business benefits all in the city from jobs to business tax whereas an HMO may involve additional support costs for those housed when council budgets are under immense strain

**[Officer comments – Officers are of the view that the objector’s reference to “the Branch” means the application site.**

**– It is understood that the applicant purchased the property in 2023.]**

**Representations**

An email in support of the application has been received from the applicant, summarised as follows:

- Property was bought with the intention of creating a short term let for families with young children after finding a lack of suitable accommodation personally;
- Hotels in the area have few family rooms and bed and breakfasts not considered suitable for young children
- The property has specifically been adapted for use by families
- At the time of purchase in April 2022 the property was subject to a prohibition order that was issued in 2017. It had sat empty for 8 years and was in a very poor condition, including structural collapse, damp and mould, hygiene, electrical hazards,
- The building was boarded up on both the ground and first floors and the external front patio was used as the local rubbish dump causing a pest problem.
- Following extensive refurbishment works and clearance of the rubbish, the problems with the property were resolved and the prohibition order was lifted on 6<sup>th</sup> May 2023.
- The works have significantly improved the immediate area
- Neighbour, very supportive.
- Two local people employed as cleaners and local art displayed, all produce offered is sourced locally.
- In a short time have become the highest rated Airbnb in Southend and won the award for family favourite in the whole of Southend area.
- We are only available for families with children and do not allow all adult groups except with certain requests.
- Because of the location we were chosen to host the artists for the councils Art Jam event, the only other adult groups we have agreed to host have been visiting Southend as participants in the classic cars by the sea event and the cycling event.
