#### 1. Commentary

This report outlines the budget monitoring position for the General Fund and Housing Revenue Account for 2016/17, based on the views of the Directors and their Management Teams, in light of expenditure and income to 31 May 2016.

The starting point for the budget monitoring is the original budget as agreed by Council in February 2016. Therefore, the full cost budget is being monitored, including fully allocated Management, Administrative and Technical Services (MATS) and capital financing costs. As at the end of May, corporate savings of £200,000 have still to be allocated to service departments and this will be done in the coming months as the detailed allocations are finalised by directors.

#### 2. Overall Budget Performance - General Fund

A variation to the overall Council budget of a £980,000 overspend is being forecast for the Council overall as measured against the latest budget. Within this position there is a projected overspend of £988,000 in Council departmental spending. This position reflects the budget pressures some services are reporting as shown in the detail in section 3 below on service variances.

# General Fund Forecast 2016/17 at 31 May 2016 - Period 2 Children and Learning Portfolio Holder - Cllr J Courtenay

	Forecast Outturn Variance	Year to Date Variance
a.		
b.	Current cohort of LDD placements and Direct Payments budgets are overspending.  Continuing overspend due to the costs of legal representation in child protection cases, linked to high numbers of children in care.	
C.		Currently on-line, assuming that earmarked reserves are used to assist with meeting the Children's centre saving – bringing down costs for future years.
d.	Overspend due to cost of Agency Social Workers in frontline child protection roles in Care Management and First Contact teams. Teams are unable to run with Vacancies due to caseloads.	
e.	Forecast for current cohort of fostering places. Placements in internal fostering have increased to 162 from 112 a year ago, partly this reflects success in increasing the number of available in-house carers, but it is also driven by higher numbers of children in care, with PVI placements also remaining high.	
f.		There is a financial risk associated with the Early Help, but this will be managed alongside the Troubled Families program in order to achieve the 2016/17 savings.
g.		
h.	Current cohort of 56 children and young people in PVI placements is forecast to overspend, making the £250k saving a significant challenge. This budget remains volatile and susceptible to sudden changes in demand from high cost placements such as secure accommodation placements.	
i.		
j.		
k.	As in last year this service is likely to underspend, however costs will start to rise once the growth in pupil numbers reaches the Secondary School Phase.	Some underspend to date on the school improvement staffing establishment. Agency interims now in place.
