Corporate Plan and Annual Report 2015
Section 1

Introduction for the Leader and Chief Executive

May 2014 saw the first significant change in the political control of the Council for 14 years, with a new joint administration of Independent, Labour and Liberal Democrat councillors. The 2015 elections saw further changes and a new addition to the administration in the form of the Southend Independence Group.

Over the last year the administration has worked to ensure the Council delivers for Southend-on-Sea and this work will continue in the coming year. The administration set out its specific commitments in last year’s Corporate Plan and Annual report and this year’s report highlights how these commitments have been met. In particular, it shows how the Council has consulted further with local people and stakeholders to help review previous decisions, and find new ways forward in relation to our libraries, care homes and Shoebury flood defences.

This plan sets out many of our recent achievements, attained in a climate of continuing funding cuts by central government. In setting the budget for 2015/16 we needed to save £11m, equivalent to over £210,000 a week. Combined with increased demands on our services, this has meant taking some very difficult decisions. However, the agreed budget continues to protect frontline services and invest in improving the infrastructure of the town, with millions of pounds being invested into our landmark Pier, the Cliffs Pavilion, and to sort out the cliffs slip.

The Council has a strong reputation for delivering, which means it is also attracting further support from a range of funding agencies. The A127 Tesco roundabout improvement scheme was delivered on time, to budget and is improving traffic flows. The £1.8m we obtained from the Government’s Growth Fund is creating and safeguarding local jobs. The rationalisation of council offices into the one Civic campus is already saving us nearly £1m a year. A new community hub has been opened in the town centre to provide additional support for local people. This is on top of the £40m already awarded from the Big Lottery to help parents give their children a better start.

Southend-on-Sea is showing that it is ‘open for business’ with progress being made on the empty Victoria Avenue office blocks, and the Seaways leisure project and Airport Business Park progressing well and with applications coming forward to develop seafront sites. We are also starting to provide social housing directly again and are actively looking at how we can provide more affordable housing for residents.

The Council is continually looking at ways it can save money and improve services, including doing things differently, if that is what it takes. We are working closely with health partners to link health and social care services, we have launched our own energy company, and we have opened a new customer service centre enabling our residents to self-service more. We have also announced our new waste contractor Veolia, who will deliver an enhanced service whilst saving the taxpayer money each year. Achieving the Investors in People Gold standard last year is also testimony to how the Council has developed a workforce that is rising to this challenge.
With a likely further £33m to find over the next three years, and a new Government agenda to address, the Council faces even greater challenges ahead. However, we are confident that we are well placed to rise to this challenge and continue to make Southend-on-Sea such a fantastic place to live, work and do business.

About Southend-on-Sea Borough Council

Southend-on-Sea Borough Council serves a population of 175,800 residents. The Council’s gross expenditure is approximately £420m and employs around 1,800 staff to provide a huge range of services to meet the needs of local people.

The A-Z of all our services can be found at [www.southend.gov.uk](http://www.southend.gov.uk)

The Council’s vision of ‘Creating a better Southend’ is supported by 5 aims:

- Clean
- Safe
- Healthy
- Prosperous
- Led by an Excellent council

The Council identifies priorities, related actions and performance measures to assess how well it is doing against the aims.

Consultation with residents and our key partners, including Essex Police, NHS South Essex, Essex Fire and Rescue, plus the business and voluntary and community sectors inform the Corporate Priorities.

**Governance:**

The Council has 51 Councillors representing 17 wards. Councillors serve for four years and one third of the council is elected each year for three years, followed by one year without election. The last elections took place in May 2015. The current political make-up of the Council is:

- Conservative Group 22
- Independent Group 11
- Labour Group 9
- Liberal Democrat Group 4
- Southend Independence Group 3
- UKIP Group 2

Following the local elections held on 7 May 2015, no party or group achieved an overall majority, therefore, a new joint administration was formed between Independent, Labour, Liberal Democrat and the Southend Independence groups.

The Council operates a Leader and Cabinet model. Major functions, such as agreeing the budget and policy framework are taken by the whole Council. Key executive decisions are taken by a Cabinet of seven Councillors with decisions and other issues reviewed by three scrutiny committees, made up of Councillors not in the Cabinet. Other committees undertake specific functions, for example, in relation to Planning and Licensing. Full details of the Council’s decision making process are available at [www.southend.gov.uk](http://www.southend.gov.uk)

**Officer Structure:**

The Council has three departments, People, Place and Corporate Services – with 13 separate service areas, which in turn are divided into about 70 service groups. The Council is also responsible for the provision of most public health services.
