Foreword

James Courtenay, Executive Portfolio Holder, Children and Learning

I am pleased to be able to report a very strong set of school performance indicators across the board in all key stages, as contained in this newly formatted Annual Education Report (AER). From the early years to post sixteen, results across the Borough are both strong and consistent compared to the national picture and to our regional and statistical neighbours.

Of particular note in this report (retrospective based upon the summer 2017 results) are the very strong rankings in the headline attainment measures at Key Stage Two and Key Stage Four (28th and 16th respectively out of 152 Local Authorities). However our success is not just limited to attainment at the end of the key stages; we have performed well against the national benchmarks within the Early Years Foundation Stage and also in the progress measures between key stages. It is fair to say that for a small unitary authority, Southend on Sea is punching above its weight.

We have taken the opportunity to try and make the AER more accessible and readable from the previous lengthy text versions, and would welcome your views. The AER is supplemented throughout the year with additional and new information for councillors, Corporate Parenting Group and members of the public through committee reports and updated to the Southend Education Board; all new initiatives to ensure that the work in all of our schools is both recognised and valued.

Dashboard Guide

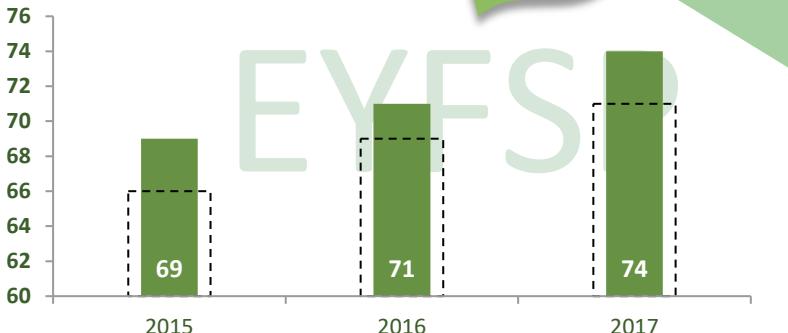

The information below is a guide to the 'Key Stage' dashboards.

- **National Averages:** National averages are presented with a dotted line, and these figures are shown in the top right hand corners of the charts.
- **Trend Tables:** Where a green arrow is shown, this indicates a statistically significant improvement. Grey arrows indicate the direction of travel.
- **Quartile 1 Flags:** Green 'Quartile 1' flags indicate that the Southend figure is in the top 25% nationally.
- **Rank Info:** Rank information is shown in the top right hand corner for every dashboard for various measures. The rank figure is Southend's position of 152 Local Authorities.

Conclusion

Through the work of the Education Board, outcomes in all schools, academies and maintained alike, will remain a key focus. Whilst we are proud of our outcomes, some areas remain stubborn, such as the achievement of disadvantaged learners. In addition, we will continue to closely monitor progress in all schools, and where we are required to do so we will directly support them in conjunction with the Regional Schools Commissioner (RSC), who is accountable for improvements in academies.

In addition, the priorities for the coming year will be to:

- Support leaders in schools and trusts where performance is less than good;
- Work directly through primary school leaders to narrow the gap in the achievement of disadvantaged youngsters and their peers;
- Robustly champion and support the achievement of children in care;
- Undertake year two of the successful initiative to allow parents the choice of the most appropriate education at aged eleven;
- Continue the drive to improve the number of pupils who attend a good or outstanding school.

We will do this by:

- Maintaining our (the Education Board's) information and intelligence of all schools;
- Working very closely with the RSC and school leaders to support their own drive for self-improvement;
- Offering bespoke support through the Teaching School by building the network of excellent school based practitioners who increasingly support each other;
- Looking outwardly for innovative and best practice to improve even faster and further.
