Projects would need to meet pre-agreed criteria and approved by the Corporate Delivery Board. There would also need to be appropriate governance arrangements put in place and sufficient due diligence undertaken before schemes are progressed.

The energy efficiency projects already in the approved capital programme are: LED street lighting (£13,500k), LED lighting for Civic Centre Underground Car Park (£19k), Civic Centre Insulation (£145k), Civic Centre Boilers – Low Loss Header (£38k), Southend Adult Community College Energy Project (£588k), Temple Sutton School Energy Project (£1,137k),

CAPITAL PROGRAMME - NEW SCHEMES/ADDITIONS
2016/17 to 2019/20

Pier Hill Lift Replacement Project (solar on roof) (£315k), Beecroft and Central Museum Energy Project (£1,092k). The total of these agreed schemes is £16,834k.

The works element of the proposed schemes are to be funded from corporate borrowing via interest free loans from Salix (an independent, not for profit company, funded by the Department for Energy and Climate Change) and the fees elements are to be funded by revenue contributions generated by energy efficiency savings.

C47 Solar PV Projects - £960,000

16/17 - £960,000

17/18 - £0

18/19 - £0

19/20 - £0

This scheme is to install solar PV panels on the roofs of Southend Hospital, Garons Leisure Centre and the Cliffs Pavilion. The local operators would be charged for energy consumed at a lower rate than their grid electricity providing them with a saving whilst the Council would generate an income from the energy charges, from a Feed-in Tariff (FiT) for all units generated and an export Tariff for any energy not consumed on site. This proposal is based on the expected drop in solar PV volume in the market immediately after the FiT changes contained in the government consultation. Energy savings are estimated at £100,000 per annum, with £50,000 in the first year.

This scheme is to be funded from corporate borrowing with the revenues generated more than covering the financing costs.
