

# PEL Bin Compactors reduce bins by 3 to 1

## BIG FOOT

MODEL 1100 LITRE BIN COMPACTOR

## Bin Compactors

PEL Bin Compactors are suitable for both indoor and outdoor use. Waste volume and waste disposal costs are reduced by up to 66%, saving storage space and saving money.

### Big Foot Optional Extras:

- 1 Weight system: Allows the user to set the weight of the bin
- 2 Galvanised head and Base
- 3 Bio Command: Using the compactor from a remote location.

### Why bin compactors make sense:

- Compact 3 bins into 1
- Safe and Easy to use
- Reduces weekly waste collection: Saving you money on your waste disposal costs
- Creates a more spacious working environment
- Reduces carbon footprint
- Compactors available for all size bins: suitable for 240 litre, 360 litre, 660 litre and 1100 litre bins

“Our site is very tight on space and have no room for additional bins. The PEL bin compactor allows us to maximise the amount of waste you get into a bin.”

Malcom McConkey.

“We use the PEL Bin Compactor on our general waste and recycling bins, and not only have we greatly reduced our waste costs, we have also reduced the number of bins in the yard which frees up space and tidies the place up. With the savings we are making on our waste costs, the PEL bin compactor paid for itself in under a year. I would recommend PEL to any school or college.”

Philip Tuitehill, House Manager for Oxford University

## Little FOOT

MODEL 240 LITRE BIN COMPACTOR

## PEL Bag Compactor

- The PEL bag compactor allows waste to be compacted into manageable bags.
- Compresses up to 10 plastic bags into 1 (depending on material used).
- Can be located close to the source of waste, making waste handling more efficient.

“Waste management at the highest level: Europe’s tallest building requires the most innovative, user friendly and reliable waste reduction equipment. PEL bin compactors, bottle crushers and balers are used to reduce waste volume, lower costs and provide an efficient waste management system throughout the Shard.”

MODEL BAG COMPACTOR

## Bin Compactors Technical Specifications:

Little Foot Bin Compactor		Big Foot Bin Compactor	
Height:	1,745mm 68 1/2"	Transport Height:	1,700mm 66 59/66"

## Balers

- PEL manufacture a complete range of balers.
- The PEL balers below can produce bales from 25kg up to 500kg.
- All machines are hydraulic.
- Please contact PEL for further details.

“The PEL Baler has allowed us to gain revenue for our cardboard and plastic instead of paying to dispose of it in bins. We have saved over €5,000 a year on bin charges since installing the PEL Baler.”

PEL 5500  
Mill Size Baler

1500 BALER
