CP 1.2	Rate of Looked After Children per 10,000 population under the age of 18. [Monthly Snapshot]	Goldilocks	January 2019	79	57-67	57-67			CLA rate remains above target and increasing - demand measurement and key question is whether the right children are brought into care. Head of Service has reviewed all children that became CLA since Apr-18 and identified decision making as appropriate. There is an increase in two groups - older adolescents (including unaccompanied asylum seekers - UASC) and under 5's. This is linked to an increased focus on working with adolescents and being part of the National Transfer Scheme for UASC. There is increasing work with pre-school, including pre-birth children. Other than children who need to become CLA in an emergency, the decision for a child to become CLA is made by the Placement Panel to ensure that all options are considered before care is agreed. This has prevented numbers escalating and, where safely, put other measures in place to support the family. Planned work around reunification should ensure children do not remain in care for longer than necessary. This increase is in line with the national picture and is reviewed to ensure the right children become CLA at the right time. Social Worker caseloads kept under weekly review to ensure they can effectively deliver good practice.	People Scrutiny
CP 3.2	Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement/rehabilitation services. (ASCOF 2B(1)) [Rolling Quarter]	Aim to Maximise	January 2019	67.5%	88.7%	88.7%			The adoption of the fully inclusive "Home First" approach across the whole of the social care system means that our reablement services are offered to as wide a cohort of clients as possible. Inherently, this will impact on the number of clients who are deemed to be successful in their reablement as defined by the	People Scrutiny

									Adult Social Care Outcomes Framework (ASCOF) definition. This strategy will cause variability in the performance of this indicator on a month to month basis depending on the make-up of the cohort. In view of this, Adult Social care and the Performance team are reviewing the detail of this cohort to look at how we can continue to adopt a fully inclusive Home First approach as well as ensure those individuals receiving pure reablement services can be identified and reported for this indicator.	
CP 3.10	Percentage of Initial Child Protection Conferences that took place with 15 working days of the initial strategy discussion. [Cumulative YTD]	Aim to Maximise	January 2019	73.5%	90%	90%			Recent months have seen a more consistent performance moving towards the 90.0% target and where conferences are delayed we are clear as to the reason to ensure that the delay is a child focused decision. The average length between Apr-18 and Jan- 19 was 16.2 days.	People Scrutiny
CP 4.8	Current Rent Arrears as % of rent due [Monthly Snapshot]	Aim to Minimise	January 2019	1.95%	1.77%	1.77%			The frontline teams continue to work together to tackle rent arrears at an early stage, and to support tenants in sustaining their tenancies. However as mentioned last month we are continuing to see an increase in both the numbers of Universal credit (UC) claims, together with an increase in the level of arrears, and there is no indication that the number of cases will reduce. Based on the current trends we have forecast that the current arrears as a % of recoverable debt is likely to increase to circa 2% by the end of this financial year. These forecasts are based on the current information available, and do not take into account any future changes that the DWP may introduce, or indeed the final transition of the residual Housing benefit cases over to UC. [Monthly Snapshot]	Goldilocks	January 2019	33.49	38-48	38-48			We are below target and relates to 131 children (although this number has subsequently risen). However this is only a measure of demand in the system and the key question is whether the correct children are made subject to child protection plans. We assure ourselves through a number of quality assurance mechanisms, including audit and senior management oversight (e.g. the Principal Reviewing Officer reviews all requests for initial child protection conferences). CP 3.9	Take up of the NHS Health Check programme - by those eligible [Cumulative YTD]	Aim to Maximise	January 2019	4,544	4,580	5,740			To date, Health Checks are at 79.2% against the cumulative annual target of 83%. This is due to below monthly target performance in Dec-18 and Jan-19. However, we do not at this point, (04/02/2019), have all the figures for the outreach service which will bring us closer to target.	People Scrutiny

CP 4.3	% of Council Tax for 2018/19 collected in year [Cumulative YTD]	Aim to Maximise	January 2019	86.60%	86.70%	97.50%			The collection rate for Council Tax as at the 31st January 2019 is 86.6%, which is 0.1% below the profiled target to the end of January. We have now successfully recruited the specialist roles of a Retention Officer and a Bankruptcy/ Liquidation Officer who will work on the more complex recovery cases as well as visiting properties within the borough to verify information and will ensure we have the specialisms to achieve our collection targets. Our two contracted enforcement agents continue with very similar acceptable levels of collection. We continue to work with the support sector to assist our residents in need, setting up a joint approach with our Citizens Advice team, working with people to agree payment plans or support with applications for hardship relief or benefit claims. CP 4.4	% of Non-Domestic Rates for 2018/19 collected in year [Cumulative YTD]	Aim to Maximise	January 2019	85.40%	89.50%	98.30%			The collection rate for Business Rates for the period ending the 31st January 2019 is 85.4% and upon reviewing the historical data the end of January collection rate of 85.4% is consistent with previous years. The difference arises due to Discretionary Discounts awarded in January 2018, which means the profiles target to date needs amending. The overall target rate for the year end is still anticipated to be achieved. We are still pursuing several large outstanding accounts for both current year and previous years arrears where we are seeking professional legal advice. Work is also continuing around the review of Charities and their status and the various reliefs we grant.	Policy & Resources Scrutiny

CP 3.13	Delayed transfers of care from hospital (DToC Beds), and those which are attributable to adult social care per 100,000 population [ASCOF(2C2) SOCIAL CARE ONLY][Cumulative YTD]	Aim to Minimise	January 2019	0.47	1.81	1.81			Delayed transfers of care from the acute and non-acute settings for social care continues to be a high priority and continues to improve. Sustained performance is achieved from a strong system leadership approach through the reintroduction of the Urgent Care Operations Group. Joint initiatives have been agreed with partner agencies to be trailed and will be on-going throughout the winter months and will support the continued development of the local winter plans. Nationally released DTOC data for Jan-19 by LG Inform continues to place Southend Borough Council within the top quartile of all English single-tier and county councils.	People Scrutiny
CP 4.10	Rate of households in temporary accommodation per 1,000 households [Cumulative YTD]	Aim to Minimise	January 2019	1.95	3.19	3.19			The data is currently only available quarterly, in line with the national statistics and monthly updates will continue. There remains pressure in this area with 154 households at the end of the month in TA which is up from 141 in Mar-18. Whilst current performance is better than the set target, it should be noted that at the end of Dec-17 local performance stood at 1.54 households per 1,000 households, compared to the England rate of 3.36. Both the local and national rates are increasing. This ranks Southend 99/294 reporting authorities, an improvement from 109 at the end of Sep-17 (292 reporting authorities), and the best position since Jun-16 where we ranked 106. It should be noted that this relatively strong position is based on the work of the proactive approach of the team, but that considerable pressures remain. Work is underway to improve the availability of private sector properties to discharge our homelessness duty into, relieving some of the pressure on the limited social housing stocks and reducing TA occupation levels. We are below target and relates to 131 children (although this number has subsequently risen). However this is only a measure of demand in the system and the key question is whether the correct children are made subject to child protection plans. We assure ourselves through a number of quality assurance mechanisms, including audit and senior management oversight (eg. the Principal Reviewing Officer reviews all requests for initial child protection conferences).

CLA rate remains above target and increasing - demand measurement and key question is whether the right children are brought into care. Head of Service has reviewed all children that became CLA since Apr-18 and identified decision making as appropriate. There is an increase in two groups - older adolescents (including unaccompanied asylum seekers - UASC) and under 5's. This is linked to an increased focus on working with adolescents and being part of the National Transfer Scheme for UASC. There is increasing work with pre-school, including pre-birth children. Other than children who need to become CLA in an emergency, the decision for a child to become CLA is made by the Placement Panel to ensure that all options are considered before care is agreed. This has prevented numbers escalating and, where safely, put other measures in place to support the family. Planned work around reunification should ensure children do not remain in care for longer than necessary. This increase is in line with the national picture and is reviewed to ensure the right children become CLA at the right time. Social Worker caseloads kept under weekly review to ensure they can effectively deliver good practice.

This month has shown improvement but this is missing target. This is still an area of focussed work with staff and managers. This is reported on a weekly basis and assurance is given that children are being appropriately safeguarded.

Aim: HEALTHY: Priorities • Actively promote healthy and active lifestyles for all. • Work with the public and private rented sectors to provide good quality housing • Improve the life chances of our residents, especially our vulnerable children & adults, by working to reduce inequalities and social deprivation across our communities.

Expected Outcome: At risk of missing target 2 Some slippage against target 2

The adoption of the fully inclusive "Home First" approach across the whole of the social care system means that our reablement services are offered to as wide a cohort of clients as possible. Inherently, this will impact on the number of clients who are deemed to be successful in their reablement as defined by the Adult Social Care Outcomes Framework (ASCOF) definition. This strategy will cause variability in the performance of this indicator on a month to month basis depending on the make-up of the cohort. In view of this, Adult Social care and the Performance team are reviewing the detail of this cohort to look at how we can continue to adopt a fully inclusive Home First approach as well as ensure those individuals receiving pure reablement services can be identified and reported for this indicator.

The collection rate for Council Tax as at the 31st January 2019 is 86.6%, which is 0.1% below the profiled target to the end of January. We have now successfully recruited the specialist roles of a Retention Officer and a Bankruptcy/ Liquidation Officer who will work on the more complex recovery cases as well as visiting properties within the borough to verify information and will ensure we have the specialisms to achieve our collection targets.

Our two contracted enforcement agents continue with very similar acceptable levels of collection. We continue to work with the support sector to assist our residents in need, setting up a joint approach with our Citizens Advice team, working with people to agree payment plans or support with applications for hardship relief or benefit claims. A wider group of our support sector is being created to assist and encourage residents to discuss and plan their finances. We also continue to work with our commercial partners using new initiatives to pursue persistent defaulters where other methods have failed through Bankruptcy and Committal court action.

The collection rate for Business Rates for the period ending the 31st January 2019 is 85.4% and upon reviewing the historical data the end of January collection rate of 85.4% is consistent with previous years. The difference arises due to Discretionary Discounts awarded in January 2018, which means the profiles target to date needs amending. The overall target rate for the year end is still anticipated to be achieved. We are still pursuing several large outstanding accounts for both current year and previous years arrears where we are seeking professional legal advice. Work is also continuing around the review of Charities and their status and the various reliefs we grant.

The frontline teams continue to work together to tackle rent arrears at an early stage, and to support tenants in sustaining their tenancies. However as mentioned last month we are continuing to see an increase in both the numbers of Universal credit (UC) claims, together with an increase in the level of arrears, and there is no indication that the number of cases will reduce. Based on the current trends we have forecast that the current arrears as a % of recoverable debt is likely to increase to circa 2% by the end of this financial year. These forecasts are based on the current information available, and do not take into account any future changes that the DWP may introduce, or indeed the final transition of the residual Housing benefit cases over to UC.

Aim: EXCELLENT: Priorities • Work with & listen to our communities & partners to achieve better outcomes for all • Enable communities to be self-sufficient & foster pride in the town • Promote & lead an entrepreneurial, creative & innovative approach to the development of our town.
 Expected Outcome: At risk of missing target 2

The council's absence levels have been below the target for the last 2 months. For year to date the Council is still above its target by 0.36 average days lost per FTE. HR have just completed the procurement process for a new Occupational Health service and will be running a series of workshops with the new provider to ensure managers make effective use of the service to support the management of absence.

Can be produced monthly and is easy to benchmark.	<p>Southend achieved 78.54% in November 2018 against the 67% diagnosis ambition target.</p>

6.	<p>Primary Care – GP Patient Survey: - Overall experience of the GP surgery (very/fairly good; fairly/very poor; neither good nor poor)</p> <p>https://gp-patient.co.uk/Slidepacks2018</p>	<p>Provides residents views on the quality of GP service in the borough. Survey is now produced annually.</p>	<p>Overall experience of GP surgery – July 2018</p> <p>Very good – 41% Fairly good – 39% Neither good nor poor – 12% Fairly poor – 5% Very poor – 3%</p> <p>National Average of patients rating ‘Good’ is 84%</p>
7.	<p>End of life care - Preferred Place of Death (PPoD) – Percentage of patients referred to the Palliative Care Support Register (PCSE) who have expressed a preference for place of death and who achieve this preference. *</p>	<p>Nationally accepted as a key performance indicator for end of life care; integral to Ambitions for Palliative and End of Life Care: a national framework for local action 2015-2020.</p> <p>Can be produced monthly.</p>	<p>Southend: 71.0%</p> <p>The PPoD achievement for Southend in January 2019 is 22 out of 31</p> <p>(no national target at present)</p>

*although patients make a preference for a place of death, often home, the reality of the last days/hours of life often prompts patients and/or relatives/carers to change their mind and seek what they consider to be a place of safety and support, which is invariably the acute trust. Patients are documented for PPoD as: Home; Hospital; Hospice; Care/Nursing Home; Community Hospital.

		**Solved rates show the ratio between the number of police-recorded crimes where the offender has received a formal sanction (includes; charges, cautions, penalty notices and cannabis warnings), and the total number of crimes recorded in the time period covered. (Solved rates do not include restorative justice or a community resolution).			
Potential Performance Measures		Rationale for inclusion	Latest Performance		
			Rolling 12 months to January 2019		Rolling 12 month Increase/ Decrease %
2	Total number of crimes +/- incidents	Provides a broad indication of the level of crime in the borough, covering all crimes	Total number of Incidents 3,388	Total number of Crimes 19,222	Crimes – ↑24.2% Incidents – 0.0%
3	Anti-social Behaviour reported	A key concern of members and public that is not reflected in the 10 BCS crimes performance measure.	6,622		↓0.7%
4	Number of arrests (cumulative)	Provides key performance information relating to Police activity to tackle crime. However, the measure may be misleading as the number of arrests has been declining as a result of greater use of alternatives to formal charges (penalty notices, community resolution, cautions etc..) – a trend which is likely to continue.	TBC		TBC
5	'Positive disposals' (outcomes of crimes 'cleared up' other than a formal conviction –..)	Recognises the full range of possible outcomes taken following arrest, such as community resolution, cautions etc...	197		↑5.6%
6	Number of domestic abuse incidents	High profile area of work and a demand pressure on resources.	1,861		↓5.7%
7	Number of incidents of missing people reported	High profile area of work and a demand pressure on resources.	87		↓27.5%
