Report of Chief Executive  
to  
Cabinet  
on  
25 June 2019

Tim MacGregor - Policy Manager

Revised Southend 2050 – Five Year Road Map  
Cabinet Member: Councillor Gilbert  
All Scrutiny Committees  
A Part 1 Public Agenda Item

1. Purpose of Report

1.1 To consider the content of the revised Southend 2050 Five Year Road Map timeline, following the formation of the joint administration at Council on 3 June 2019.

2. Recommendation

2.1 That Cabinet agrees the revised Southend 2050 Road Map time-line (Appendix 1), reflecting the policy objectives of the new joint administration.

3. Background

3.1 Council on 13 December 2018 agreed the Southend 2050 Ambition, Themes and Outcomes and Five Year Road Map. This followed extensive community engagement and a process of review and revision which led to the incorporation of suggested changes made by councillors, prior to and during the scrutiny process.

3.2 Since then the Council has been progressing implementation of the Road Map, supported by the development of a series of delivery plans. Strategic Delivery Plans (SDPs) with a five year time horizon and based on the five Ambition themes, have been led by a Cabinet member and a member of the Corporate Management Team. These were agreed by Cabinet on 17 January 2019.

3.2 Outcome Delivery Plans (ODPs), with a one year to 18 months horizon and led by officers, support the SDPs and will be refreshed each year. The report agreeing the Road Map and associated documentation emphasised that they ‘should not be seen as set in stone’, but would respond to changing circumstances.

3.3 The Council meeting on 3 June, saw the Labour, Independent and Liberal Democrat Groups form a new administration which has set out its policy objectives and which support the 2050 Ambition and Road Map desired outcomes, while placing greater emphasis or prioritisation on particular areas. Among these are new housing
opportunities, including new social and key worker housing; measures to improve the private rented sector; prioritisation of the green agenda; a more integrated approach to transport, including reviewing the current approach to parking; enhancing local people’s skills and making the council a living wage employer. The new priorities are underlined and highlighted in the revised 2050 Road Map time line, attached at Appendix 1.

3.4 The Southend 2050 Themes and Outcomes for 2023 are set out in Appendix 2. This highlights the opportunity for Cabinet members to be assigned to each theme, with a view to reviewing the current Strategic Delivery Plans to take account of the new administration’s policy objectives and to oversee progress against each theme.

3.5 The Council has recognised that the Southend 2050 Ambition and Road Map cannot be delivered without a fundamental change in the way it operates. Central to this change are the values and behaviours adopted by councillors, senior managers and staff. The values, agreed by Cabinet have been supplemented by five expected behaviours as follows:

Values:
- Inclusive: we put people at the heart of what we do;
- Collaborative: we work together
- Honest: we are honest, fair and accountable and
- Proud: we are proud to make lives better

Behaviours:
- Driving positive change;
- Trust and respect;
- Demonstrating strong leadership;
- Act with integrity and behaving responsibly and
- Building relationships to work well together

Adopting these values and behaviours with a renewed councillor focus on the 2050 desired outcomes will provide a significant boost to delivering the 2050 Ambition.

4. Other Options
Not adopting the recommended approach would mean that the Council’s administration policy objectives would not be fully reflected in the Southend 2050 Road Map.

5. Reason for Recommendation
To have in place an up to date ambition for Southend 2050, Themes, Outcomes and a Five Year Road Map, for the future of the borough.

6. Corporate Implications
6.1 Contribution to Southend 2050 Road Map
The purpose of the report is to provide an update to the Southend 2050 Ambition and Road Map, providing the context for the Council’s key planning documents, following the formation of a new Council administration on 3 June.
6.2 Financial Implications

The Council’s existing revenue and capital budgets will contain elements of funding to deliver some of the priorities within the 5 year Road map. Where priorities require new or additional investment, and for disinvestment, these will be considered as part of the Outcome Delivery Plans and outcome based budgeting for 2020/21 to 2023/24 in setting the council budget for those years.

The new administration policy objectives will be further assessed for financial implications, which may require further prioritisation and/or reallocation of resources, to be considered at future Cabinet meetings.

6.3 Legal Implications - None specific.

6.4 People Implications – None specific

6.5 Property Implications

All the 2050 priorities with property implications will be assessed as part of the Council’s asset management and capital programmes, and the pipeline assessment work.

6.6 Consultation - None specific.

6.7 Equalities Implications

Southend 2050 programme was designed to engage with as wide a range of stakeholders as possible, both geographically and across the protected characteristics. Consultation methods were inclusive and accessible. Equality Analyses will be carried out on key deliverables as they are progressed.

6.8 Risk Assessment

Delivery of the new administration’s policy objectives will be considered as part of the Council’s risk management processes.

6.9 Value for Money – none specific

6.10 Community Safety Implications

Feedback from 2050 engagement identified a number of ambitions relating to community safety that are being addressed as potential outcomes in subsequent Council delivery plans and partners strategies. Enhancing community safety across the borough has been included in the revised timeline.

6.11 Environmental Implications

Environmental issues have been enhanced in the revised 2050 time-line, with the objective of prioritising work on climate change, energy saving, air quality & biodiversity in particular.
