Prior to consideration of Minute 152 (Request for waiting restrictions) the Deputy Leader (Transport, Capital and Inward Investment) made the following statement of clarification to the Council on how Councillor requests for traffic schemes are dealt with:

*“Councillors will be aware that there has been some misinterpretation of comments I made at the close of a Traffic Regulation Working Party. I want to take the opportunity to clearly set out my position.*

*There is an agreed process from November 2018 for proposals to be considered by the Traffic Regulation Working Party/Cabinet Committee as and when they arise.*

*These schemes, whether originating from councillors, the public or officers, are assessed by officers with an appropriate report to the Working Party.*

*The Working Party/Cabinet Committee then decide whether they should progress or be deferred.*

*These schemes are then dealt with by the Highways team. They are progressed primarily in chronological order, subject to staff resources, budgets and safety consideration.*

*Every year more schemes are added to this list than the Highways team has the capacity and resource to complete. Inevitably, a significant backlog has built up.*

*I have asked officers to focus on the existing list of projects as a priority and determine what additional resources might be necessary to clear the backlog within a reasonable period.*

*New schemes that are required for safety or emergency reasons would of course continue to be assessed and processed by officers as usual. This is not a change to the overall process.*

*I would have thought that this would have been welcomed by my fellow Councillors as a way of dealing with this issue for the benefit of our local residents.”*

Resolved:

That the minutes of this meeting be noted and the recommendations in Minutes 141, 145, 146, 150 and 152, be approved.

Resolved:

That the minutes of this meeting be noted.

**236 Minutes of the meeting of Policy and Resources Scrutiny Committee held Thursday 11th July 2019**

Prior to consideration of Minute 184 (Revised Southend 2050 – Five Year Road Map) the Deputy Leader (Transport, Capital and Inward Investment) made the following statement to Full Council:

*‘This new administration is a listening one, and we have heard the concerns of local businesses, residents and visitors in respect of a number of parking issues.*

*We have therefore given careful consideration to what changes could be made to help alleviate some of these concerns, and I would like to announce that we will be pursuing the four following initiatives as quickly as possible:*

***2a: Re-instatement of 1-hour parking in town centre car parks***

*As an administration we want to support the town centre whilst we consider how we implement many of the findings of the joint scrutiny project.*

*Firstly, we will be re-instating the 1-hour parking band in town centre car parks.*

*We will be doing this as quickly as possible, but we must of course comply with the necessary formalities, including altering the relevant parking orders, and the subsequent re-configuration of parking meters and changes to signage to reflect the new charges.*

*We expect this to be in place in October which will support local traders and shoppers in the run up to Christmas.*

*We estimate there will be a small loss in income of around £25,000 in this financial year which will be met from our contingency budget. However, we believe that this small investment will be worth it given the impact this will have on the vitality of the town centre.*

*We propose to build this change into next year's budget.*

*In addition, the administration will also give consideration to re-introducing the one hour band to other car parks that currently have a two-hour minimum charge, such as Western Esplanade.*

***2b: To remove charges for non-resident blue badge holders***

*A decision to charge all non-resident blue badge holders for parking in our car parks was made as part of a previous budget decision.*

*Cabinet has reviewed this decision and have agreed to reverse this as soon as possible.*

*We will do this as quickly as possible, but we must of course comply with the necessary formalities, including altering the relevant parking order.*

*The loss in income is minimal and will be managed within existing budgets.*

***2c: Engaging of a third party supplier to follow through enforcement of Foreign Vehicles***

*It has been highlighted to me that the enforcement of Foreign Registered Vehicles has proved difficult as we do not have access to the European Vehicle Database. However; a company has been sourced who work with London boroughs and are willing to work with us.*

*The administration will therefore ask officers to engage this company to pursue owners of foreign registered vehicles that commit civil contraventions in Southend-on-Sea on a commission only basis, with no costs to the council.*

***2d: Additional enforcement officers***

*We understand that there is an appetite for increased parking enforcement, particularly in the vicinity of schools for example.*

*In response to this, and to address inconsiderate and dangerous parking, this administration will ask officers to engage with our parking contractor to supply five additional civil enforcement officers up to the end of March 2020.*

*The net cost of this proposal will be met from the business transformation reserve in 2019/20. We will assess the impact of this initiative and consider it as part of next year's budget setting."*

*During consideration of Minute 190 (Notice of Motion – Traveller Incursions) a requisition for a named vote having been made in accordance with Council Procedure Rule 12 to refer the matter back to Cabinet, the voting was as follows:*

## **238 Notice of Motion - Climate Change**

Resolved:

That in accordance with Standing Order 8.4, the following Notice of Motion, be referred to the Cabinet:

### ***'SOUTHEND-ON-SEA BOROUGH COUNCIL AND CLIMATE CHANGE***

*Council notes the impacts of climate change which were considered in the Report on Global Warming, published by the Intergovernmental Panel on Climate Change in October 2018, that describes the enormous harm that a 2°C average rise in global temperatures is likely to cause compared with a 1.5°C rise; confirms that limiting Global Warming to 1.5°C may still be possible with ambitious action from national and sub-national authorities, civil society and the private sector; and states that all governments (national, regional and local) have a duty to act, and local governments that recognise this should not wait for their national governments to change their policies.*

Furthermore, Council notes the recent statement from Government that the target for zero emissions is to be set at 2050, and the IPCC's finding that net-zero carbon dioxide emissions must be reached by 2030. Strong policies to cut emissions also have associated health, wellbeing and economic benefits; and recognising this, a growing number of UK local authorities have already passed 'Climate Emergency' motions.

## **MOTION**

**Given the special situation of this Borough geographically, ecologically and environmentally, Southend-on-Sea Borough Council therefore declares a Climate Emergency requiring urgent action and commits to the following six actions, and in so doing calls on the Government to provide the powers, resources and help with funding to achieve them, and urges its local MPs to support this action and lobby Government accordingly -**

1. ensuring action is taken to achieve net-zero carbon by 2030 if not earlier for its activities, supporting and working with all other relevant agencies towards making the Borough zero carbon by that date and that all strategic decisions, budgets and approaches to planning decisions are aligned with a shift to zero carbon and achieving 100% clean energy across the Council's full range of functions by 2030 if not earlier, as part of the Borough's 2050 Vision;
2. ensuring that this work is embedded within all political and senior officer leadership teams in all areas to effect the reduction, as rapidly as possible, of carbon emissions resulting from the Council's activities, with any recommendations fully costed and that the Executive and Scrutiny Committees review Council policies, strategies and activities taking account of production and consumption emissions and produce an action plan within 12 months, together with budget actions and a measured baseline. This leadership to be led across the Council by key roles selected by the Chief Executive and the Cabinet.
3. working with, influencing and inspiring partners across the Borough and region to help deliver this goal through all relevant strategies, plans and shared resources and sets up a Climate Change Partnership group, involving Councillors, residents, climate science and solutions experts, businesses and other relevant parties, and in particular the young people who will have to live with the consequences of our actions, to consider strategies and actions being developed by the Council and other partner organisations and develops a strategy in line with a target of net zero emissions by 2050 if not earlier, including ways to maximise local benefits of these actions in other sectors;
4. reporting on the level of investment in the fossil fuel industry alongside sustainable and renewable energy schemes that our pensions plan and other investments have, and review the Council's investment strategy to give due consideration to climate change impacts in the investment portfolio;
5. ensuring that all reports in preparation for the 2020/21 budget cycle and investment strategy will take into account the actions the Council will lead and take to address this emergency;
6. considering other actions that could be implemented, such as renewable energy generation and storage, providing electric vehicle infrastructure and encouraging alternatives to private car use, increasing the efficiency

*of buildings, in particular to address fuel poverty; proactively using local planning powers to accelerate the delivery of net carbon new developments and communities, coordinating a series of information and training events to raise awareness and share good practice;*
