#### Informatives

01 Please note that the development the subject of this application is liable for a charge under the Community Infrastructure Levy (CIL) Regulations 2010 (as amended) and it is the responsibility of the landowner(s) to ensure they have fully complied with the requirements of these regulations. A failure to comply with the CIL regulations in full can result in a range of penalties. For full planning permissions, a CIL Liability Notice will be issued by the Council as soon as practicable following this decision notice. For general consents, you are required to submit a Notice of Chargeable Development (Form 5) before commencement; and upon receipt of this, the Council will issue a CIL Liability Notice including details of the chargeable amount and when this is payable. If you have not received a CIL Liability Notice by the time you intend to commence development it is imperative that you contact [S106andCILAdministration@southend.gov.uk](mailto:S106andCILAdministration@southend.gov.uk) to avoid financial penalties for potential failure to comply with the CIL Regulations 2010 (as amended). If the chargeable development has already commenced, no exemption or relief can be sought in relation to the charge and a CIL Demand Notice will be issued requiring immediate payment. Further details on CIL matters can be found on the Planning Portal ([www.planningportal.co.uk/info/200136/policy\\_and\\_legislation/70/community\\_infrastructure\\_levy](http://www.planningportal.co.uk/info/200136/policy_and_legislation/70/community_infrastructure_levy)) or the Council's website ([www.southend.gov.uk/cil](http://www.southend.gov.uk/cil)).

02 The applicant is reminded that this permission does not bestow compliance with other regulatory frameworks. In particular your attention is drawn to the statutory nuisance provisions within the Environmental Protection Act 1990 (as amended) and also to the relevant sections of the Control of Pollution Act 1974. The provisions apply to the construction phase and not solely to the operation of the completed development. Contact 01702 215005 for more information.

03 The applicant is reminded that this permission does not bestow compliance with the Licensing Act 2003. Applicants should contact the Council's Licensing Team for more advice on 01702 215005.

04 An application to discharge trade effluent must be made to Anglian Water and must have been obtained before any discharge of trade effluent can be made to the public sewer. Anglian Water recommends that petrol / oil interceptors be fitted in all car parking/washing/repair facilities. Failure to enforce the effective use of such facilities could result in pollution of the local watercourse and may constitute an offence. Anglian Water also recommends the installation of a properly maintained fat traps on all catering establishments. Failure to do so may result in this and other properties suffering blocked drains, sewage flooding and consequential environmental and amenity impact and may also constitute an offence under section 111 of the Water Industry Act 1991.

05 There is clear evidence that the installation of Automatic Water Suppression Systems (AWSS) can be effective in the rapid suppression of fires. Essex County Fire and Rescue Service (ECFRS) therefore uses every occasion to urge building owners and developers to consider the installation of AWSS. ECFRS are ideally placed to promote a better understanding of how fire protection measures can reduce the risk of life, business continuity and limit the impact of fire on the environment and local economy. Even where not required under Building Regulation's guidance, ECFRS would strongly recommend a risk base approach to the inclusion of AWSS, which can substantially reduce the risk to life and of property loss. We would also encourage developers to use them to allow design freedom, where it can be demonstrated that there is an equivalent level of safety and that the functional requirements of the regulations are met.

06 The applicant is reminded that additional water supplies for fire-fighting may be necessary for this development. The applicant is urged to contact the Water Technical Officer at Service Headquarters tel 01376 576342.

07 The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework. The detailed analysis is set out in a report on the application prepared by officers.

(c) In the event that the planning obligation referred to in Part 9(a) above has not been completed by 5th March 2020 or a later date that has been agreed in writing by the local planning authority, the Director of Planning and Transport or Group Manager (Planning & Building Control) be authorised to refuse planning permission for the application on the grounds that the development will not provide for affordable housing and necessary transport mitigation measures contrary to the objectives of the National Planning Policy Framework, Policies KP1, KP2, KP3, CP3, CP4 and CP8 of the Southend-on-Sea Core Strategy (2007), Policies DM1, DM3, DM7 and DM15 of the Southend-on-Sea Development Management Document (2015). In the absence of these planning obligations the application is found to be unacceptable.
