**Page 33              3. Relevant Planning History**

**Update** – since the drafting of the committee report an appeal has been lodged against a previous application on this site reference 20/00546/OUT which sought permission to demolish the existing buildings (including No.6 Crosby Road) and erect 4x three-storey buildings comprising 8 dwellinghouses. The appeal has not yet been determined.

Although not forming part of this site, there is also a current appeal pending for the former school playing field to the rear of the application site. The appeal is against the refusal of planning permission reference 20/00709/OUT for 6 dwellings. This appeal has not yet been determined.

#### **4. Representations Summary**

Since the committee report was finalised, an additional 3 letters of representation have been received which make the following summarised comments:

- Previous applications have been refused on the site.
- Concerns relating to number of units proposed.
- Concerns relating to the demolition of No.6 Crosby Road and that its demolition would provide access to the playing fields to build additional housing on protected green space.
- Detached houses would be more in-keeping.
- Residential amenity concerns.
- Loss of privacy.
- Loss of sunlight and daylight.
- Design concerns including that the proposed dwellings are too high and the pitch of the roof is unacceptable and concerns relating to the building lines.
- Pleased to see houses not flats. 5 houses on site more acceptable than 18 flats.
- Concerned that 2 parking spaces will be provided to the front of No.6.
- Concerns that the application was wrongly validated relating to concerns over No.6 Crosby Road and concerns relating to plans submitted.
- Concerns relating to neighbour consultation.

#### **9. Recommendation**

The positive and proactive statement was omitted and should be included as follows:

*The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating, with the Applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework. The detailed analysis is set out in a report on the application prepared by officers.*

#### **Photographs**

Photographs of the site were omitted from the agenda. They have been included as appendix 1 of this Supplementary Agenda.

#### 4. Representation Summary

4 additional letters of representation have been received raising the following summarised issues:

- The fixed roof over the raised plinth will increase the use of this area and substantially increase overlooking concerns for neighbouring properties.
- Concern that the proposal relates to land which is owned by the Crooked Billet.
- The resident's concerns have not been taken seriously.
- The space to the east seems too small for access by cycles.
- Tables and chairs are no longer shown on the terrace area which is misleading.
- Noise and unsociable behaviour.
- Lack of access for disabled customers.

#### 9. Recommendation
