

Southend-on-Sea Borough Council

Joint Report of Executive Director
(Finance and Resources)
and Deputy Chief Executive and Executive Director
(Housing & Growth)

To
Cabinet

On
16th February 2021

Report prepared by Pete Bates
Interim Head of Corporate Finance

Agenda
Item No.

3

Housing Revenue Account (HRA) Budget and Rent Setting Report 2021/22
Policy and Resources Scrutiny Committee
Cabinet Member: Councillor Ian Gilbert
Part 1 (Public Agenda Item)

1 Purpose of Report

- 1.1 To highlight how investment from the Housing Revenue Account (HRA) will contribute towards meeting housing needs in Southend-on-Sea. The planned investment programme and effective management of the Council's housing stock will also contribute to our Southend 2050 ambition for everyone to feel safe and well and for everyone to have a home that meets their needs.
- 1.2 To present the outcome of Southend-on-Sea Borough Council's annual rent review and associated rent setting proposals for all council dwellings within the HRA for 2021/22. This report also sets out the HRA budget for 2021/22 – 2025/26, together with the information necessary to set a balanced budget as required by legislation.
- 1.3 To present proposals to increase service and facilities charges to recover actual costs, together with a review of rental charges for garages.

2 Recommendations

That Cabinet recommends to Council that, as part of the budget setting process, it approves the following increases with effect from 5th April 2021: -

- 2.1 **An average rent increase of 1.50% on all tenancies;**
- 2.2 **An average rent increase of 1.50% on shared ownership properties;**

- 2.3 **An increase of 1.50% for garage rents to £12.20 per week for tenants and £14.64 for non-tenants (being £12.20 plus VAT), a rise consistent with the proposal for the main rent increase. All variants on a standard garage will receive a proportionate increase.**

That Cabinet recommends to Council that, as part of the budget setting process, it approves: -

- 2.4 **South Essex Homes core management fee be agreed at £6,336,000 for 2021/22;**
- 2.5 **South Essex Homes proposals for average increases of 2.52% in service charges and 10.39% in heating charges to reflect the actual costs incurred be agreed;**
- 2.6 **The following appropriations be agreed;**
- **£60,000 to the Repairs Contract Pensions Reserve;**
 - **£4,002,000 to the Capital Investment Reserve and**
 - **£8,334,000 from the Capital Investment Reserve**
- 2.7 **Subject to item 2.1 through to 2.6 above, the HRA budget for 2021/22 as set out in Appendix 1 be agreed and**
- 2.8 **The value of the Council's indicative capital allowance for 2021/22 – 2025/26 be declared as £75,327,000, as determined in accordance with regulation 16 of the Local Authorities (Capital Finance and Accounting) (England) Regulations.**

3 Background

- 3.1 The Housing Revenue Account (HRA) is the statutory “landlord” account for the authority. For Southend-on Sea Borough Council, this expresses in financial terms the level of housing service provided within agreed policy guidelines.
- 3.2 The COVID-19 pandemic continues to have a huge direct operational and financial impact right across the world. 2020 has been an extraordinary year. All local authorities are struggling with the challenges of uncertainty, large financial pressures and concerns for their residents and local areas in such unprecedented times.
- 3.3 South Essex Homes are faced with very similar issues as they continue to try and support tenants and run an effective and responsive local housing service. The Government announced that the whole of England would be placed in a national lockdown from 5th January 2021. There are still some concerns over the continued spread of the virus and the ability of the NHS to cope with the increased volume of admissions to hospital at what is notoriously a very busy and demanding time in any normal year.

- 3.4 Alongside these worrying developments, there were also some very positive announcements around the successful testing of various potential vaccines to immunise people against the virus. Consideration has now turned to how these new vaccines can be safely and quickly deployed across populations, prioritising the most vulnerable in the first instance with the obvious ambition to finally get everyday life back to normal again. The UK Government has set a target of the middle of February 2021 to offer a first vaccine dose to everyone in the top four priority groups. It is estimated that this is circa 15 million people in the UK. Effective mobilisation and implementation of this ambitious immunisation strategy has been positive so far with over 10 million people receiving their first dose of the vaccine at the time of writing this report.
- 3.5 Despite these unprecedented circumstances the Council is obliged by law to set rents and other charges at a level, to avoid a deficit on the HRA balance (i.e. the legal minimum balance at any time during the financial year must be greater than zero). **This report proposes an HRA budget that avoids a deficit balance.**
- 3.6 The estimates have been prepared alongside South Essex Homes, and incorporate their proposed management fee for 2021/22.
- 3.7 The HRA Budget for 2021/22 is summarised at **Appendix 1**.

4 Southend 2050 Housing Ambition

- 4.1 South Essex Homes has a vital role to play in helping to deliver the Council's Local Housing Strategy and our ambition, developed together with our local community, to ensure that 'everyone has a home that meets their needs'. The three key aims of South Essex Homes are: -
- 1) To support the delivery of quality housing, including affordable housing to meet local needs and promote a sustainable and balanced housing market.
 - 2) To support improvement in the quality of the existing housing stock to achieve decent, healthy, and environmentally sustainable homes across all tenures.
 - 3) To support greater accessibility to different types of housing and promote independent living for our (most) vulnerable residents and continue to work to prevent homelessness.
- 4.2 This aspiration is being achieved through several initiatives including major investment via the HRA Capital programme of £75,327,000 over the next five years. This will ensure that we maintain decent homes and improve those that need it. The types of works will include electrical rewiring, bathroom installations, new roofs, new kitchens, new windows and doors replacements and installation of new more economical and energy efficient boilers.

- 4.3 A range of temporary accommodation services provides help and support to some of Southend-on-Sea's most vulnerable residents. Our Housing, Homelessness & Rough Sleeping Strategy aims to encourage good quality housing design, management, and maintenance, and this directly relates and supports a lot of the day-to-day work that South Essex Homes undertake.

5 Rent Levels

- 5.1 The Council reviews and sets all council house rents in line with national policy, guidance, and legislation. The average weekly rent charged for 2020/21 on HRA secure general needs tenancies was £89.17 and for sheltered accommodation £77.68.

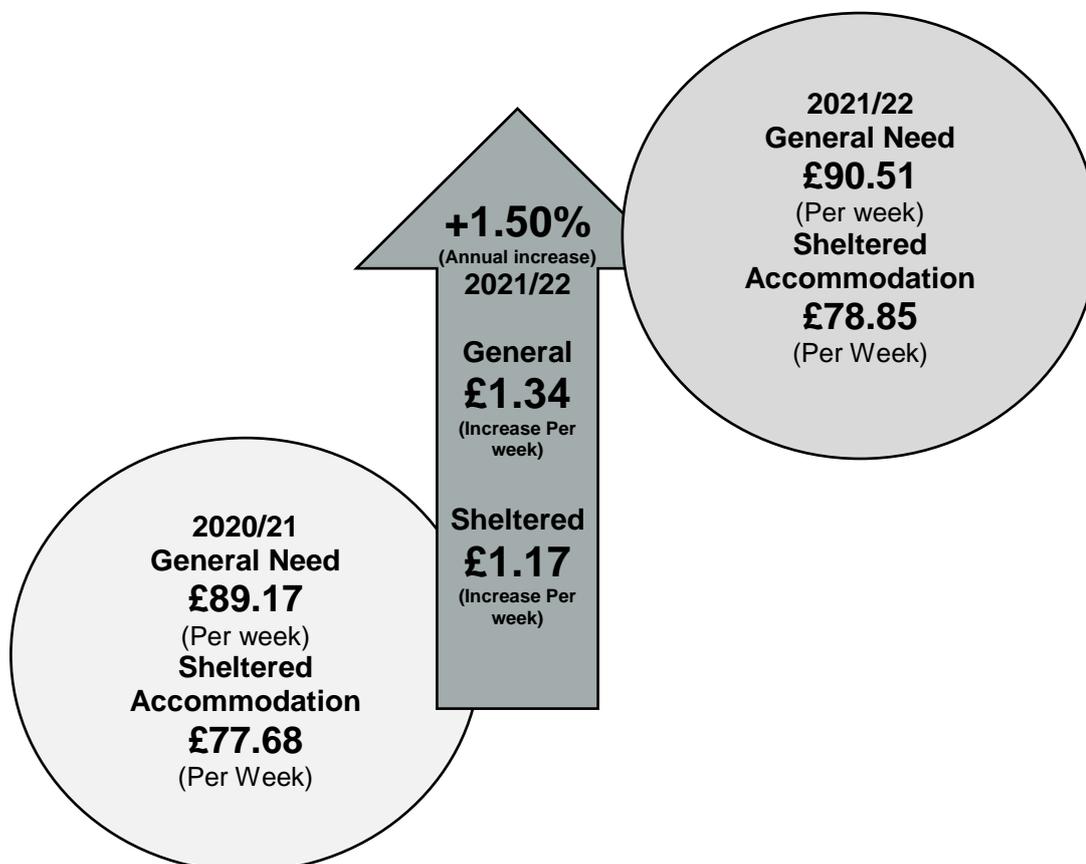

- 5.2 Since 2001, rents for social housing properties have been based on a formula set by Central Government, which was calculated based on the relative value of the property, relative local income levels and the size of the property. This created a 'formula rent'. The aim of this approach was to ensure that similar rents are charged for similar type of properties. In Southend, we have about 700 properties that are yet to convert to formula rents.
- 5.3 In 2011, Central Government introduced a new regime for defining affordable rents, which permitted rents (inclusive of service charges) to be set at up to 80% of market rent for a local area. Only new properties (or new social housing) can be let at this new affordable rent level. In Southend, our affordable rent level equates to the Local Housing Allowance (LHA) rates which is lower than the 80% level of market rents. The council currently has 85 properties on the LHA rate, and all new HRA properties will be set at LHA levels and calculated on this basis.
- 5.4 In October 2017, the government announced its intention to set a long-term rent deal for both local authority landlords and housing associations. This would allow annual rent increases on both social rent and affordable rent properties of up to CPI at September each year plus 1 percentage point from the financial year 2020, for a period of at least five years ('the new policy'). This equates to a 1.50% increase for 2021/22. The new policy, which came into effect from April 2020, recognises the need for a stable financial environment to support the delivery of new homes and to enable registered providers to plan effectively and have a viable future financial investment programme.

- 5.5 The Council will be able to continue with its policy to move rents to formula level on change of tenancy. The rent increase for general needs and sheltered tenancies is summarised by the number of bedrooms per dwelling in the following table.

No. of bedrooms	No. of tenancies	Average Rent 2020/21 (£)	Average Rent 2021/22 (£)	Average weekly increase (£)	Average percentage increase
0	505	71.16	72.23	1.07	1.50%
1	2,489	77.97	79.14	1.17	1.50%
2	1,249	87.21	88.52	1.31	1.50%
3	1,564	104.51	106.08	1.57	1.50%
4	94	112.12	113.80	1.68	1.50%
5	3	119.42	121.21	1.79	1.50%
Total Tenancies	5,903				

- 5.6 The rents for the Council's 13 shared ownership properties have traditionally been set on the same basis as a full Council dwelling, on a pro-rata basis to the Council's ownership. It is recommended that these rents continue to increase by the prevailing September CPI rate +1%, being consistent with the proposal for the main rent increase. Across the 13 properties, the Council's ownership ranges from 10% up to 75%.
- 5.7 Rent in the Council's hostels is currently charged at £169.32 per week. It is recommended that this increases by the prevailing September CPI rate +1%, being consistent with the main rent increase, to £171.86. This charge is inclusive of service charges but is subject to additional charges for heating and water.
- 5.8 Members are reminded that a proportion of tenants may be impacted by other welfare reforms. Where working age tenants are in under occupation of their home, any housing benefit payable will be reduced by 14% for one extra bedroom or 25% for two or more extra bedrooms. Some tenants may also be affected by the benefit cap, which limits the totality of all benefits to a maximum of £20,000 per year for a couple or a single person with children. Where total benefits, including housing benefit, exceed the cap, the housing benefit will have to be reduced to bring the total package back down to £20,000. Single people with no dependent children are capped at £13,400. Around 55% of all tenancies also receive housing benefit support that will be funded by Central Government. Most of these tenants will receive 100% support.

5.9 The effective date of any change in rent will be 5 April 2021, being the first Monday of the new rent year. The illustration below shows the average rent increase for both general needs tenancies and for sheltered accommodation proposed for 2021/22.

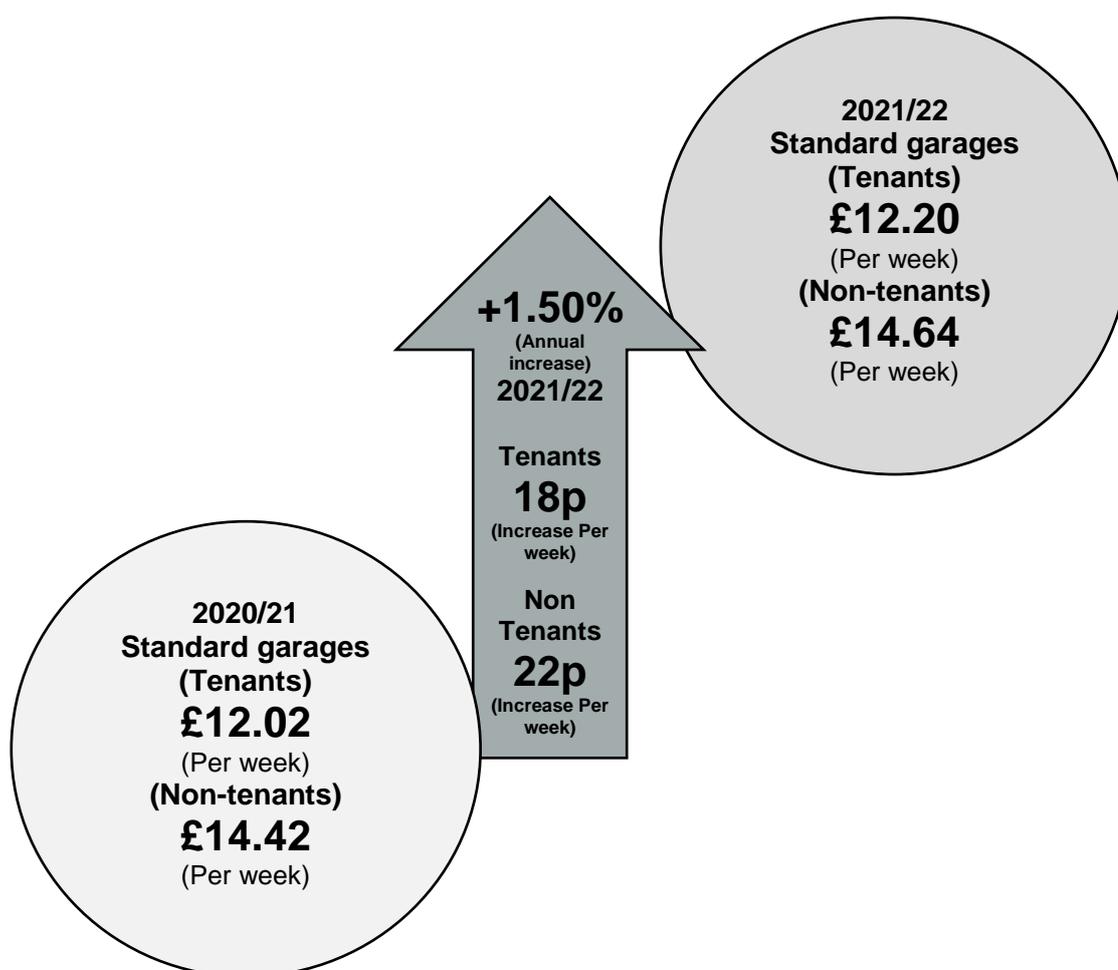

6 Other Fees and Charges

6.1 The HRA has several income streams other than dwelling rents, the majority of which are set by the Council and therefore need a resolution for any changes.

Garages

- 6.2 Standard garages are currently charged at £12.02 per week for tenants and £14.42 for non-tenants (being £12.02 plus VAT). It is proposed that both these charges be increased by 1.50%, to be consistent with the proposal for the main rent increase. All variants on a standard garage will receive a proportionate increase.

Water Charges

- 6.3 The Council (acting as an agent) collects the water rates on behalf of Northumbrian Water Company (trading locally as Essex & Suffolk Water); in respect of all unmetered Council houses and then remits this to the water company in full including void properties. The Council is compensated separately by the water company for collecting these water rates including an appropriate void loss allowance. The Council renewed this arrangement with Northumbrian Water Company with effect from 1 April 2017, which will run until March 2022.

7 Management Fee to South Essex Homes

- 7.1 On an annual basis a management fee bid for the following financial year is sent to the Deputy Chief Executive by the Board of South Essex Homes. Following negotiations, the proposed fee has been agreed and has been set mindful of the financial pressures and ambitions within the HRA. The agreed bid is summarised in the following table.

	2020/21 Forecast £000	2021/22 Budget £000
Management Fee	5,738	6,047
Inflationary Pressures	176	55
Pension Triennial Review Outcome	143	0
Fire Safety Management	0	57
Support for increased Hostel Provision	90*	90*
Professional Support for Residents	23*	23*
Difficulty Access Co-ordinator	0	32*
Complex Needs Support Officer	0	32*
Less:		
Inflation Absorbed	(56)	0 [#]
Total Management Fee	6,114	6,336

**Pilot started/extended into 2021/22 – evaluation to be completed by March 2022*

[#]Absorbed requests as summarised in Section 7.4

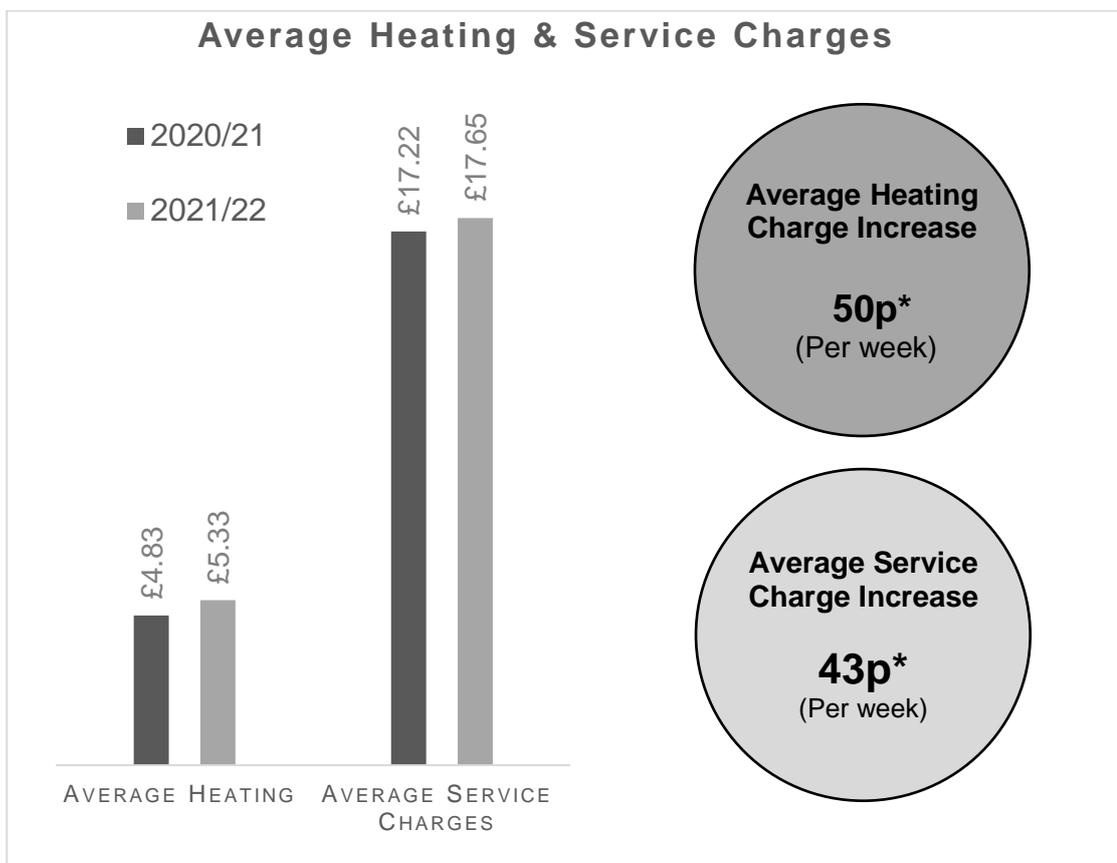

- 7.2 The inflationary pressures for South Essex Homes are primarily in respect of employee related increased costs. There is also a need for increased investment for Fire safety. Since the tragedy at Grenfell Tower, fire safety has been a key focus for organisations with high rise residential blocks. South Essex Homes have been proactive with their approach to fire safety, with an ongoing programme of improvements. This resource will be dedicated to managing, co-ordinating and enhancing fire safety arrangements including liaison with Essex County Fire and Rescue Service as well as carrying out all fire safety related investigations and ensuring compliance with all regulations.
- 7.3 There were two pilots for increased support for hostel provision and professional support for residents which started in 2020/21 and these have been extended into 2021/22. Along with these pilots, two other initiatives are being supported in 2021/22, Difficulty Access arrangements, and Complex Needs Support. All these projects have been agreed to be evaluated and reviewed by the end of March 2022.

- 7.4 South Essex Homes have also made several requests for 'one-off' financial support for 2021/22. Whilst these requests were valid it has been agreed that they will review all relative priorities and absorb these requirements within their existing resources by making operational efficiencies and productivity gains. These requests included £32K for council tax on empty properties on Queensway and £81K for a range of ICT requirements to support mobile and remote working. This agreement recognises the financial pressures within the HRA.
- 7.5 Following decisions made as part of previous budget setting rounds, South Essex Homes also receive a significant proportion of their income from service and heating charges levied directly on tenants and leaseholders. It is behoven on South Essex Homes and the Council to ensure that service charges to tenants are reasonable, and that they are set as near as possible on an actual cost recovery basis. South Essex Homes has therefore proposed increases in these charges as set out below for Members endorsement.

Service Charges and Heating Charges (South Essex Homes Charge)

- 7.6 Over the past year, there has been a detailed review of the cost-recovery of all service charges, to ensure that the overall income received covers the cost-of-service provision. Based on this analysis South Essex Homes are proposing an average 2.52% increase in service charges.
- 7.7 As service charges are based on both the actual costs for each housing block and actual costs of services provided, individual charges could change by more or less than the average proposed increase. This will ensure that service charges are kept in line with the cost of providing the service. Service charges are generally covered by housing benefit where applicable.
- 7.8 Heating charges for sheltered housing and hostel tenants are monitored on a scheme-by-scheme basis, with the aim that each scheme broadly covers its costs. 2020/21 costs will undoubtedly be affected by COVID-19 with some tenants having to stay at home for longer periods of time than in previous years.
- 7.9 Based on costs associated with heating, South Essex Homes are proposing that there is an average 10.39% increase in heating charges in 2021/22. The increase is based on the actual costs incurred over the year ending October 2020 and is a combination of utility price increases and tenant usage over that period.

7.10 The actual charge for 2021/22 will be the actual costs associated with each individual scheme.

*indicates an estimate (this could increase or decrease)

8 Options to Balance the HRA

- 8.1 The HRA budget has been constructed using realistic and reasonable estimates based on the best information currently available. The budget, based on the proposals outlined in this report, is shown at **Appendix 1**. The budget shows an operating surplus of £4,062,000 and on that basis the HRA is clearly viable.
- 8.2 The surplus will be primarily used to fund a revenue contribution towards the completion of the current new build programme, and the commencement of the next phase. This means that £4,002,000 is proposed to be appropriated to the Capital Investment Reserve. The remaining £60,000 of the surplus is proposed to be appropriated to the Repairs Contract Pensions Reserve under the on-going arrangement put in place when the repairs contract was last let.
- 8.3 Finally, to finance these ambitious plans it will also be necessary to appropriate £8,334,000 from the HRA Capital Investment Reserve. The net overall impact is an appropriation from earmarked reserves of £4,272,000 (£8,334,000 - £4,062,000) in 2021/22.

8.4 General HRA balances will remain above the target of £3,000,000 at £3,502,000.

9 HRA Medium Term Financial Plan and Strategy

9.1 The HRA Medium Term Financial Plan is shown at **Appendix 2**. The forward forecast of the HRA is based on a general assumption of an underlying 2% CPI, consistent with the Bank of England's latest forecasts.

9.2 For expenditure, the variations from the 2% assumption are depreciation and interest charges which are based on the Council's business plan and treasury management strategy. The plan allows for borrowings to rollover on maturity.

9.3 For income, it is assumed that rent will increase by CPI at September + 1% from 2021/22 as indicated by the Government. Other income increases will be limited to 2%, where possible, in line with the Council's Medium Term Financial Strategy assumptions for the General Fund. The value of the proposed Capital Investment Programme includes an agreed 8% recharge for facilitation of the capital works and will clearly vary in line with the size of the Programme.

9.4 Members will be aware of the proposed regeneration of the Queensway Estate. The HRA Medium Term Financial Strategy assumes that this development would be broadly revenue neutral at this stage. On the basis that lost rental income will be largely offset by a reduced need for management and maintenance liabilities. Some basic allowance has been made for a net loss in future years. Further work will be undertaken to understand the exact implications when the redevelopment proposal is finalised and phased, including how any decant process will work. The Medium Term Financial Strategy will be updated as soon as a better understanding of the exact timing of any impact is known.

9.5 As part of formulating the overall Medium Term Financial Strategy for the HRA an extra £150,000 per year has been included from 2021/22. This recognises the support ICT currently offers for the efficient running of HRA services. As well as the ICT investment, there is also a need for enhancing the client management function of the South Essex Homes contract.

9.6 The Medium Term Financial Strategy demonstrates that the HRA is currently financially robust and sustainable. From 2022/23 to 2026/27 an operational surplus is forecast, which will be appropriated to HRA earmarked reserves and be available for future investment priorities to continue to deliver improved housing outcomes for Southend-on-Sea tenants. The HRA reserves position are shown at **Appendix 3**.

9.7 The Major Repairs Allowance is used to support improvements to existing stock and maintain decent homes standards. The Medium Term Financial Strategy currently assumes around £7,500,000 capital expenditure on the decent homes programme per annum from 2021/22. It is proposed that some of the future HRA surplus be diverted to the Major Repairs Allowance to support and enhance the level of capital investment to maintain and improve the quality of our existing housing stock.

10 HRA Capital Allowance and Housing Strategy

10.1 South Essex Homes supports our ambition that ‘everyone has a home that meets their needs’. This will be achieved through a combination of the revenue repairs investment and the HRA capital investment programme, which is included within the main ‘Prioritising Resources to Deliver Better Outcomes – 2021/22 to 2025/26’ budget report, elsewhere on the agenda. This proposes an indicative programme of works over the next 5 years totalling £75,327,000.

At the same time, capital receipts generated by the sale of HRA assets continue to be subject to pooling arrangements with up to 75% of proceeds being at risk of being paid over to Central Government. The Council is taking appropriate action to minimise the value that is paid over to Central Government, by declaring a capital allowance under regulation 16 of the Local Authorities (Capital Finance and Accounting) (England) Regulations. This equates to the value of investment going back into affordable housing, and as such is equal to the value of the HRA capital programme.

Proposed Capital Investment Programme 2020/21 to 2025/26								
Scheme	Project code	2020/21 Budget €000	2021/22 Budget €000	2022/23 Budget €000	2023/24 Budget €000	2024/25 Budget €000	Indicative 2025/26 €000	Total Budget (all years) €000

TOTAL PROPOSED CAPITAL INVESTMENT PROGRAMME - HRA		15,787	18,940	19,266	7,728	7,641	5,965	75,327

The indicative investment for 2025/26 and the associated financing via MRR is not currently included in the proposed capital investment programme report and is shown for illustration only.

- 10.2 The HRA will also continue to play its full part in the delivery of the Housing, Homelessness and Rough Sleeping strategy through the appropriate use of its capital and revenue resources. Following the Government's decision to lift the HRA debt capital ceiling, it could be possible to use HRA borrowing to build new affordable homes. Any proposals to explore this possibility would be subject to a full commercial business case and reported through the due processes of the Council.
- 10.3 The council is continuing with its plans for the housing development pipeline. Several sites within the pipeline are currently underway and a major capital investment of £13.1M is included in this programme to deliver the agreed phases of the affordable housing development programme to provide much needed housing for those on the Home Seeker's register.
- 10.4 A Regeneration Framework site pipeline has been developed which will oversee this programme. This work is augmented by other approaches to housing supply being progressed, including the use of HRA Capital and Right-to-Buy receipts to purchase properties on the open market and bring these into use as affordable housing in the borough. As at the end of December 2020 (Month 9), there had been 9 completed purchases, with a further 11 properties in the pipeline awaiting completion.
- 10.5 The HRA Affordable Housing Acquisitions Programme is 30% financed by retained 'Right to Buy' capital receipts. To ensure all these receipts can be used within the timeframes set by Central Government the total amount of £7,200,000 needs to be spent from April 2021 to June 2023, with targets in each quarter. The profile for acquisitions has been programmed as £3,000,000 in 2021/22 and £2,976,000 in 2022/23. The balance of this requirement to spend £7,200,000 will be met from the planned Housing Construction Phases 3 and 4. The Housing Construction Programme has been profiled as £5,211,000 in 2021/22 and £7,064,000 in 2022/23. The balancing 70% will be financed from the HRA capital investment reserve. Due to Covid-19, there has been a relaxation of the rules to spend the required investment in the dictated timescales for the 2020/21 financial year, but no similar flexibility has yet been announced for 2021/22.
- 10.6 If the Council exceeds any of the quarterly targets that have been programmed, then the excess will count towards the next quarter. As conveyancing timeframes cannot be guaranteed the timing of the proposed investment plan is to exceed the targets rather than to just meet them in case any of the planned property purchases do not proceed within the appropriate timescales. The situation will be kept under regular review.

11 Other Options

- 11.1 There are other options available to Members in relation to the proposed rent and other services and facilities increases.

- 11.2 The rent standard policy statement published by Central Government in February 2019, allows the council to apply a lower increase or to freeze, or to reduce the rents if they wish to do so as well as limiting the increase to CPI at September +1%. Setting a rent increase lower than what is proposed in this report would eventually have a detrimental impact on the viability and sustainability of the HRA.
- 11.3 If the HRA does not recover the full costs of services and facilities provided to tenants and leaseholders, there will be a negative impact in terms of the Council's ability through South Essex Homes to continue to manage, maintain and invest in its housing stock and services. The level of income collected is all invested back into the housing stock and range of tenant services. Any reduction in income will clearly have a detrimental impact on the investment plans in 2021/22 and the future.

12 Reasons for Recommendations

Part of the process of maintaining a balanced budget for the HRA is to undertake an annual rent review and assessment of other service and facilities charges. Full Council will need to approve the HRA budget and any changes to rent and other services prior to the start of the financial year.

13 Corporate Implications

13.1 Contribution to the Southend 2050 Road Map

The recommendations that are contained in this report, provide the resources to maintain and enhance the quality of the Council owned social housing stock. This will contribute directly to the Southend 2050 ambition, and outcome that 'we are well on our way to ensuring that everyone has a home that meets their needs'.

13.2 Financial Implications

As set out in the report

13.3 Legal Implications

The Council is under a duty to maintain a Housing Revenue Account and prevent a debit balance, in accordance with Part VI of the Local Government and Housing Act 1989. Part VI requires the council to prepare proposals relating to the income generated through the collection of rents and other charges, expenditure in respect of repairs, maintenance, supervision and management of Housing Revenue Account property and other prescribed matters. The proposals should be based on the best assumptions and estimates available and should be designed to secure that the Housing Revenue Account for the coming year does not show a debit balance.

The Council has a power to make reasonable charges (rent) for the tenancy or occupation of its dwelling-houses pursuant to section 24 of the Housing Act 1985 and is required to keep under review, the rent it charges. The Council may increase the rent it charges, in accordance with the current tenancy agreement, by giving its tenants a minimum of 28 days prior written notice as permitted by section 102(1)(b) of the Housing Act 1985.

A service charge is an amount payable (directly or indirectly) by a tenant of a dwelling as part of or in addition to the rent. Costs for service charges must be reasonable and reflect the service being provided and must be identified separately to the rent charge. Rent setting is part of good financial planning and important for the forthcoming financial year. The proposals recommended demonstrate that the Council is complying with its statutory duty and government guidance and is in line with the self-financing regime.

13.4 People Implications

None at this stage.

13.5 Property Implications

The recommendations in this report assist in the proper management of the Council's housing stock.

13.6 Consultation

Policy and Resources Scrutiny Committee on 4th February 2021 acknowledged the planned extra investment into the Council's Housing Stock, highlighted concerns over the impact of COVID-19 and the availability of local affordable housing. The Committee also recognised that the proposals contained in the report demonstrated a commitment to increase the level of local affordable housing provision. No other specific comments were provided on the draft Housing Revenue Account Rent setting proposals or the proposed Capital Investment Programme for 2021/22 to 2025/26.

Appropriate notice of proposed increases in rents and charges has been factored into the timetable for implementing the recommendations of this report.

13.7 Equalities and Diversity Implications

An equality impact assessment has been carried out in respect of the proposed changes to rent, service and heating charge levels. Notwithstanding these are applied equally and consistently across all groups as appropriate to the accommodation they occupy, there is evidence that those not in receipt of housing benefit may be negatively affected by the change in rent and service charges, and that all groups may be negatively affected by the change in heating charges.

Mitigation across all groups will be through South Essex Homes Tenancy Services working with residents to sustain their tenancies and to provide advice and signposting on money management.

13.8 Risk Assessment

The financial risks associated with these proposals have been considered throughout this report, and in particular have been factored into the development of the self-financing business plan; and will be incorporated into the report on the robustness of the budget and the reserves policy to be presented to Cabinet and Council in February 2021.

13.9 Value for Money

The proposals within this report are consistent with the Council's plans to continue to improve value for money within the services it offers.

13.10 Community Safety Implications

None at this stage.

13.11 Environmental Impact

None at this stage.

14 Background Papers

Equalities Assessment into the impact of the increase in rents, service and heating charges have been carried out.
