**Financial Impact** 

## Introduction

rence

The following initiatives represent individual proposals for savings or income generation ideas for 2021/22 – 2025/26. The figures in each year represent the proposed change in spending or increase in income, compared to the 2020/21 Approved Budget. If the change is permanent it is therefore repeated each year; for example, if a vacant post is proposed to be deleted from 1st April 2021, then this same value of saving will feature in each year. The table does not mean an additional saving for that amount is required in each year, instead it represents the ongoing financial benefit.

If spending or income proposals vary across the 5 years, then the value in each year still represents the change from the existing 2020/21 Approved Budget. For example, if a permanent savings proposal is estimated to be achieved  $^{1}/_{2}$  way through 2021/22, then this will show as  $^{1}/_{2}$  the value in 2021/22 but then the full value will be shown for the following 4 years or if the saving is deemed to be increased over time then the value will also increase in later years but each year will still represent the proposed change from the 2020/21 Approved Budget.

| SW01    | Review of Supported Accommodation & Supporting People contracts, to ensure they are targeted, effective and best meet the needs of adults.  Developing a better and more agile housing offer to provide clear targeted pathways of support for people living with mental health and learning disabilities.   | n/a                    | -                | 300              | 300              | 500              | 500              |
| SW02    | Commercial negotiation and contract reviews with key providers to deliver efficiencies and an increased commercial focus.  | n/a                    | 160              | 780              | 780              | 780              | 780              |
| SW03    | The Care Act (2014) is clear that preventing, reducing or delaying the need for care is an integral the duty of all local authorities. This ties in with the promotion of wellbeing, which is at the core of the Act, and if the requirement for care can be delayed, then the cost and dependency associated with care can also be delayed.  Southend's vision for adult social, as set out in Southend 2050, is to help people stay well for as long as possible, living in the community and connected to the people they are closest too. Therefore our focus in the medium and long will be to develop a range of support that enables independence and consequently help people avoid the need for residential care for longer.  Effective services and support that increase independence will enable people to stay in their own home for much longer. This will delay admission to a care home for any individual and will have the effect of reducing the length of stay in a care home placement.  We will do this by supporting people to regain skills and abilities they may have lost after a crisis – such as an accident requiring hospital care through effective and focused reablement. We will also increase the amount of home care available in the borough, and enable and train home care providers to support more complex people in their own home. We will use assistive technology, such as sensors, door monitors, video support and remote monitoring to help people stay at home for longer. We will also work with colleagues in housing to ensure that there is sufficient housing with on site care and support (extra care housing) in the borough so that people can move to their own home with support available.  The long term impact of this is that these actions will reduce the need for care home placements, both for people funded by the council and for self funders. It is also likely to increase the complexity of people in care homes, resulting in an increase in care home prices, offset by the reduced number of placements. We will work with local care providers | n/a                    |                  |                  |                  | 625              | 1,250            |
| SW04    | Targeted reviews of low cost home care packages. Ensuring that packages are commensurate with meeting need and, where appropriate, enabling people to become more independent.   | n/a                    | 267              | 250              | 125              | -                | 1                |
| SW05    | Review local and regional learning disability pathways to enable people to move from supported living towards greater independence.  | n/a                    | -                | 150              | 300              | 300              | 300              |
| SW06    | Mental health social work support for people in Southend is delivered by EPUT under a section 75 agreement. This is a standard partnership agreement. The current agreement has not been reviewed for some time and needs updating.  We will work with EPUT to identify a shared way of delivering more effective and targeted support for people with statutory adult social care needs in relation to their mental health. We will also work to increase the focus on the delivery of prevention and support for the general population. We will develop these plans through coproduction and in light of changes patterns of both demand and support. This will take into account increased availability of community and voluntary sector delivered services.  | n/a                    | -                | 100              | 100              | 100              | 100              |

| SW07      | The Care Act allows local authorities to charge people a fair contribution towards the cost of care. We will carry out a review of rates used to assess contributions to care, alongside the current policy in relation to partial disregards on disability benefits and our approach to personal allowances. We will use both local evidence and national guidance in relation to a fair and consistent way of ensuring parity in contributions towards the cost of care. In any financial assessment individual circumstances will continue to be taken into account. People are only charged when they can afford to pay all or part of the actual cost of their care. No one will pay more the care actually costs the council to deliver. Any policy changes will be subject to an equality assessment prior to implementation.   | n/a                      | -                | 140              | 140              | 140              | 140              |  |
| SW08      | The aim is a refresh of our Strength based approach to Social Care that focusses on what really matters to people, their families and their communities. The commitment to co-design through conversation, innovation and engagement recognising that people and families just want to get on with their lives and a strength based approach to conversations can significantly reduce their reliance on formal care.  Our current model of social care support brings in people to service before they actually need them. This reduce both independence, self reliance, and ignores the capacity of our local community to support each other. We will move to a right time right care right person approach. This will reduce the overall delivery of funded care support for individuals by delaying the start of care until a person actually needs it, and by sustaining independence as long as possible. | n/a                      | -                | -                | 200              | 200              | 200              |  |
| SW09      | Based on recent benchmarking information explore options to optimise efficiency and productivity which should result in a reduction in internal costs of the Council's adult social care operations.   | - 2.00                   | 100              | 100              | 100              | 100              | 100              |  |
