This is an independent report which the local authority is required to publish. The report is an opportunity to focus attention on particular issues that impact on the health and wellbeing of the local population, highlight any concerns and make recommendations for further action.

4.0 The 2019 Annual Report of the Director of Public Health

- 4.1 The Report this year provides an update on last year's report (2019 Annual Public Health Report) and covers the following themes:

- ✓ Health Protecting and COVID-19 - Focus on the consequences and impact of the Coronavirus pandemic; Flu Immunisation uptake;
- ✓ Tackling Wider Inequalities – Focus on Mental Health and Wellbeing; Obesity and the Food environment; Drug and Alcohol misuse; Social Prescribing scheme and impact on Loneliness and self-care; and the wellbeing of some our more vulnerable groups, such as people who are classed as Unpaid Carers, people living with Autism and those who are affected by Homelessness.

- 4.2 In 2019, we highlighted that we had a focus on two key themes:

- Health Protection - Flu & MMR immunisation; Measles Outbreak; Air Quality;
- Tackling Inequalities (Families & Children) – Obesity; Parenting and YP's Mental Health.

A RAG-rated summary of actions against each of the seven recommendations has been included in the report's appendix section.

- 4.3 The Southend 2050 Ambition and the NHS Long Term Plan collectively set out the key things we can expect to work as partners to turn the ambitions into improvements in services and build community resilience. Combined with the challenges of the pandemic, we will need to address recovery, living with the pandemic and refocus our work on tackling health inequalities.
- 4.4 There is no definitive list of recommendations in the report as many of the selected themes have agreed plans or ones in the process of finalisation.
