1. Commentary

This report outlines the budget monitoring position for the General Fund and Housing Revenue Account for 2016/17, based on the views of the Directors and their Management Teams, in light of expenditure and income to 31 May 2016.

The starting point for the budget monitoring is the original budget as agreed by Council in February 2016. Therefore, the full cost budget is being monitored, including fully allocated Management, Administrative and Technical Services (MATS) and capital financing costs. As at the end of May, corporate savings of £200,000 have still to be allocated to service departments and this will be done in the coming months as the detailed allocations are finalised by directors.

2. Overall Budget Performance – General Fund

A variation to the overall Council budget of a £980,000 overspend is being forecast for the Council overall as measured against the latest budget. Within this position there is a projected overspend of £988,000 in Council departmental spending. This position reflects the budget pressures some services are reporting as shown in the detail in section 3 below on service variances.

**General Fund Forecast 2016/17
at 31 May 2016 - Period 2
Children and Learning
Portfolio Holder - Cllr J Courtenay**

Forecast Outturn Variance	Year to Date Variance
a.	
b. Current cohort of LDD placements and Direct Payments budgets are overspending. Continuing overspend due to the costs of legal representation in child protection cases, linked to high numbers of children in care.	
c.	Currently on-line, assuming that earmarked reserves are used to assist with meeting the Children's centre saving – bringing down costs for future years.
d. Overspend due to cost of Agency Social Workers in frontline child protection roles in Care Management and First Contact teams. Teams are unable to run with Vacancies due to caseloads.	
e. Forecast for current cohort of fostering places. Placements in internal fostering have increased to 162 from 112 a year ago, partly this reflects success in increasing the number of available in-house carers, but it is also driven by higher numbers of children in care, with PVI placements also remaining high.	
f.	There is a financial risk associated with the Early Help, but this will be managed alongside the Troubled Families program in order to achieve the 2016/17 savings.
g.	
h. Current cohort of 56 children and young people in PVI placements is forecast to overspend, making the £250k saving a significant challenge. This budget remains volatile and susceptible to sudden changes in demand from high cost placements such as secure accommodation placements.	
i.	
j.	
k. As in last year this service is likely to underspend, however costs will start to rise once the growth in pupil numbers reaches the Secondary School Phase.	Some underspend to date on the school improvement staffing establishment. Agency interims now in place.

The remaining budget of £1million relates to commercial property buy back and a project budget for the continuance of the scheme.

Tickfield

All building works have now been completed at Tickfield and the final account is the only outstanding cost.

Asset Management (Property)

A scheme to demolish the existing Southend Library car park and construct a new one is taking place in 2016/17 and utility mapping, topographical surveys and laser scanning has already taken place. The new building will increase capacity for parking spaces and earn additional income.

A scheme to improve the crematorium grounds and replace the aged Pergola Walk is taking place in 2016/17 to include memorials and interment units within the supporting structure.

A scheme to install 197 pre-made graves to hold cremated remains is also taking place during the year.

Research is currently underway for technologies to replace the Barracuda software which filters the Council's emails as the current system is not resilient enough. A combined solution with the web content filtering software will be investigated to ensure best value for money.

A scheme to replace and upgrade the Government Connect Secure Exchange mailbox is also planned for 2016/17. This system is currently used by staff for secure communication to and from Central Government and the upgrade will ensure the service continues.

Condition Schemes

A budget of £1.215m has been allocated to address larger conditions in schools where the cost is over the schools capabilities to fund. Most of these works will be undertaken over the school summer holidays to minimise disruption to the schools. Retentions of £34k are being held for works completed last year at ten primary schools.

Devolved Formula Capital

This is an annual devolution of dedicated capital grant to all maintained schools. The grant for 2016/17 is £288k. This grant amount will reduce as further maintained schools convert to academy status.

Primary School Places

The primary expansion programme is now in its final stages with two projects still underway at St Helen's Catholic and St Mary's Primary Schools. Local Growth Fund

The A127 Growth Corridor projects will support the predicted growth associated with London Southend Airport and the Joint Area Action Plan (JAAP) proposals developed by Southend, Rochford and Essex County Councils to release land and create 7,380 high value jobs. The improvement will also support background growth of Southend and Rochford.

The final business case for A127 Kent Elms junction improvements has been approved by the South East Local Enterprise Partnership to draw down the 2016/17 funding. Further work is underway for the final bridge and highways maintenance business cases for 2016/17 onwards.
