		<p>Scale Bar</p>	<p>Prior to the commencement of works, it is our recommendation for the Client/ Contractor to construct a trial hole/ slit trench the full depth of the proposed extensions and/ or alterations so as to confirm the extent of any existing hidden services that were unable to be identified on Survey.</p> <p>We also recommend prior to any excavations that the Contractor conducts a full scan of the area for development to locate any buried services not identified. Refer to Structural Engineer's drawings for all structural matters.</p> <p>Construction of works shall not commence until full approvals and clarifications have been agreed and obtained from the relevant body and copies submitted to the Local Authority Building Control for approval.</p>	Proposed Basement Section A-A	Proposed New Care Home Memory House	Barry Mullen	WD05	WD05S
